ARTICLE I

1.0 INTRODUCTION, PURPOSE, FINDING

1.1 Introduction

The General Laws of Rhode Island, §5-3.1-5(a) provides that the certificate of "certified public accountant" shall be issued to any person meeting stated statutory requirements. Section 5-3.1-5(a)(3) establishes as part of the requirements that a candidate must have a baccalaureate degree conferred by a college or university recognized by the Board, the total educational program of which includes an accounting concentration or its equivalent and courses in such related subjects as the Board shall determine to be appropriate. This section, as amended by P.L. 1992, Ch. 391, §1, further provides that after July 1, 1999 the education requirement shall be at least one hundred and fifty (150) semester hours of college education including a baccalaureate or higher degree conferred by a college or university acceptable to the Board, and the total educational program must include an accounting concentration or equivalent as determined by Board rule to be appropriate.

1.2 Purpose

The purpose of these regulations is to establish a reasonable, fair and standardized set of rules in order for applicants for the certificate of "certified public accountant" to be able to plan and fulfill the education requirement.

1.3 Finding

In considering the adoption of these regulations, the Board finds that there is no alternative approach which would be as effective and less burdensome to private persons as another regulation. The Board further finds that this regulation will not have a significant adverse impact on small business.
