The quota may be harvested by licensed gear fishermen in accordance with the provisions of Title 20 of the General Laws and in accordance with all rules and regulations promulgated by the R.I. Marine Fisheries Council. In order to provide for the orderly harvest of the quota the R.I. Marine Fisheries Council has established the following sub-period allocations:

7.7.1 Summer flounder Sub-periods and Possession Limits

7.7.1-1 Winter Sub-Period: January 1 - April 30 annually.

Target allocation - 54% of the annual quota established in Section 7.7, unless modified pursuant to this part. The possession limit per vessel will be 700 pounds per calendar day. The DFW will increase the possession limit during the sub-period based on the current catch rate and advice from fishing industry representatives and the Rhode Island Marine Fisheries Council.

7.7.1-2 Summer I Sub-Period: May 1 - July 31 annually.

Target allocation - 12% of the annual quota established in Section 7.7,

unless modified pursuant to this part. The possession limit per vessel will be 100 pounds per calendar day.

The possession limit per vessel will be 450 pounds per calendar day. Any unused portion of the quota from a 'sub-period' will be equally distributed to the allocations of the remaining sub-periods. The over-harvest of a sub-period allocation will be deducted from the allocations of the remaining sub-periods. Annually, the target allocations specified in sections 7.7.1-1 through 7.7.1- 4 shall be adjusted by the DFW to charge over-harvest of a sub-period allocation during a given year to the same sub-period of the next following year.

7.7.2 Summer flounder Trip Limits (possession limit)

7.7.2-1 Repealed 5/11/01

7.7.2-2 The possession limit may vary from the amount specified in sections 7.7.1-1 through 7.7.1- 4. Fish and Wildlife, after discussions with fishing industry representatives, will determine, based upon the period of time remaining in the quota period and the current catch rate, whether the quota will be reached prior to the end of the sub-period. Having determined the catch rate and time remaining in the sub-period, Fish and Wildlife will decide whether the possession limit should be decreased or increased. Fish and Wildlife will file a notice with the Secretary of State's Office if the rate is changed, and publish a news release announcing the change in a newspaper of daily circulation throughout the State.

[Effective 12:01 AM, June 21, 2003, commercial summer flounder fishery will be closed until August 1, 2003 when it is scheduled to open with a 150 pound possession limit per vessel per calendar day.]

7.9.2 Commercial --The total allowable harvest of tautog will be established annually, and will be that amount allocated to the State of Rhode Island by the Regional Fishery Management Council and/or the Atlantic States Marine Fisheries Commission. The quota may be harvested only by permitted gear types and licensed fishermen in accordance with all rules and regulations promulgated by the DEM and the RIGL Title 20. The quota shall only be available during the following seasons:

(a) April 15 – May 31: 1/3 of the annual quota established in this part shall be available from April 15 through May 31, unless modified pursuant to this

part. It shall be unlawful to possess aboard or land from a vessel, in any one calendar day, more than ten (10) tautog during this period. The aggregate number of tautog on any vessel, regardless of how many licensed fishermen are onboard, may not exceed the ten (10) fish limit per day. Any unused quota not harvested during a sub-period will be carried forward into the next period and any over-harvest will be deducted equally from all periods in the next calendar year. No licensed commercial fishermen may possess more than ten (10) tautog in any calendar day. During a closure of the R.I. tautog fishery a federally permitted vessel fishing in the Exclusive Economic Zone (EEZ), may traverse Rhode Island waters for the purpose of landing tautog in another state, provided their nets are stowed in accordance with Section 10.10 of these regulations.

7.9.3 Possession Limits for Charter and Party Boats -- Compliance aboard vessels will be determined by dividing the number of fish on board a vessel by the number of recreational fishermen on board said vessel. Said fish shall not be offered for sale. Party and charter boats may obtain a State permit by showing proof of a U.S. Coast Guard License to conduct their fishery within the territorial waters of Rhode Island.

7.9.4 Reporting requirements. -- For the purpose of determining the commercial landings of tautog in Rhode Island, and whether the landings are increasing or decreasing during any period, every person licensed to catch, possess, purchase, or sell tautog shall report weekly by telephone a record of the pounds of tautog taken, possessed, purchased, or sold in Rhode Island during the period for which such record is requested. Compliance in the party and charter boat industry will be satisfied through submission of the

blue copy of the National Marine Fisheries Service fishing vessel trip report to Fish and Wildlife, or they must report weekly landings as requested by Fish and Wildlife. Provided, however, such returns from any person shall only be made public in a statistical format.

Winter Period II (November-December) -- possession and landing limit is 2,000 pounds, decreasing to 500 pounds once 70% of the period quota is landed. [Effective 12:01 AM on November 1, 2003, the possession limit for scup will be 4,000 pounds per vessel, per calendar day.]

7.11.2-2 Summer-Fall Period (May - October) A state quota for scup will be established annually for the Summer-Fall period and shall be the most recent amount allocated to the State of Rhode Island by the Atlantic States Marine Fisheries Commission and/or the Secretary of the U.S. Department of Commerce and published in the Federal Register. The total quota for will be divided as follows:

FLOATING TRAPS licensed by the state of Rhode Island – Sixty percent (60%) of the Summer-Fall period quota will be allocated to the floating trap harvesting sector. The quota allocated to the floating trap sector will be available during the following sub-periods:

MAY 1 – MAY 31: Ninety percent (90%) of the floating trap quota, will be available from May 1 through May 31. The possession limit will be 25,000 pounds per fish trap licensee* per calendar day. Once eighty percent (80%) of the sub-period allocation is projected to be harvested, the possession limit will be 10,000 pounds per fish trap licensee per calendar day.

JUNE 1 – AUGUST 31: Ten percent (10%) of the floating trap quota, will be available from June 1 through August 31. The possession limit will be 2,000 pounds per fish trap licensee per calendar day. If 80% of the May 1 – May 31 allocation is not harvested by May 31 the possession limit on June 1 shall be 25,000 pounds per fish trap licensee per calendar day until 80% of the May allocation is projected to be harvested, at such time the possession limit shall be 10,000 pounds per fish trap licensee per calendar day. Once ninety percent (90%) of the entire quota is projected to be harvested the possession limit shall be 2,000 pounds per fish trap licensee per calendar day. Annually on August 1, the unharvested portion of the floating fish trap quota shall be made available to all gear types. 7.11.2-3 Possession Limit Adjustments -- Except for scup harvested from floating fish traps licensed by the State of Rhode Island, the possession limit may vary from 0 - 10,000 pounds. Fish and Wildlife, after discussions with fishing industry representatives, will determine, based upon the period of time remaining in the quota period and the current catch rate, whether the quota will be reached prior to the end of the sub-period.

Having determined the catch rate and time remaining in the sub-period, Fish and Wildlife will decide whether the possession limit should be decreased or increased. Fish and Wildlife will file a notice with the Secretary of State's Office if the rate is changed and publish a news release announcing the change. The rate may be modified by Fish and Wildlife upon providing such notification with the possession limit altered between a range of 0 - 10,000 pounds in possession.
