Providence, RI 02908

This document replaces Chapters 1 through 5 of the program adopted by the Coastal Resources Management Council in 1977.

Other adopted elements of the Rhode Island Coastal Resources Management Program include the Energy Amendments of 1979, Management Procedures, Right-of-Ways to the Shore, Special Area Management Plans for selected areas, and the Guidelines for the Development of Municipal Harbor Management Plans. These documents may be obtained from the Council's offices.

Acknowledgments

The development of the Rhode Island Coastal Resources Management Program was undertaken in 1973, approved by the CRMC in 1977, and federally-approved in 1978. In 1983, its first five chapters were replaced by this document, commonly referred to as the “Redbook” and initially printed for the Council through the University of Rhode Island’s Publication Office (P964 12/83 5M). The Redbook was last printed as a bound document in May of 1990.

This edition of the RICRMP is the first time that the Redbook has been formatted for a three-ring binder. It was printed in June 1996. All revisions to this edition are current as of December 14, 2010.

Over the years, many people devoted time and thought to this document and made significant contributions to its form and content.

For its initial development, John A. Lyons, chairman of the Coastal Resources Management Council, and CRMC's Working Group on Program Revision attended innumerable meetings to review several drafts of this document over a period of two years. The members of the group were Alvaro Freda, Dr. William Miner, Barbara Colt, Malcolm Grant, James Beattie, Frank Geremia, and Lee Whitaker. The entire Council attended many sessions of the Planning and Policy Subcommittee to discuss major policy issues raised by these amendments.

The many years' experience of the Council's staff led to the initial development of the standards listed in Part Three. Special thanks go to Nicholas Pisani, James Parkhurst, Linda Steere, and Gail Chmura, all of whom made substantial contributions to the document.

Various agencies, private groups, and individuals commented on the document during the initial nine-month public review period and made suggestions that are incorporated in the final product. Special thanks are due to Malcolm Grant of the Department of Environmental Management; Daniel Varin, chief of the Statewide Planning Program; Christopher Little of Save the Bay; Kenneth Payne, director of the League of Cities and Towns; Friends of the Waterfront (Newport); the Rhode Island Association of Realtors; and the Rhode Island Marine Trades Association. Over the years, these same groups have made many comments on proposed revisions and have kept active in the review process.

For the initial “Redbook” document (1983), the authors were Stephen Olsen and George Seavey, of URI’s Coastal Resources Center. The maps were originally drawn by Marion McHugh and Betsy Watkins. Vicki Desjardins did the final editing, and Larry Pearce was responsible for the layout and design. This current format for the Redbook, the three-ring bound document of the RICRMP, was prepared, edited, and designed by Joanne Moore and Jeff Willis of the Council’s staff.

The preparation of the original Redbook publication was financed in part by a grant from the National Oceanic and Atmospheric Administration, under the provisions of the Coastal Zone Management Act of 1972 (Public Law 92-583), and in part from the NOAA Office of Sea Grant, U.S. Department of Commerce, under Grant #NA-81AA-D-00073. This three-ring bound document was financed in part by a grant from the National Oceanic and Atmospheric Administration, under the provisions of the Coastal Zone Management Act of 1972 (Public Law 92-583), under Grant #NA57OZ0449. The U.S. Government is authorized to produce and distribute reprints for governmental purposes notwithstanding any copyright notation that may appear hereon.

Additional copies of this publication are available from the Coastal Resources Management Council, Oliver Stedman Government Center, 4808 Tower Hill Road, Wakefield, R.I 02879.

Contents

Guidelines for Applicants

The Program's Enabling Legislation

Part One. Authorities and Procedures

- Section 100 Alterations and Activities That Require an Assent from the Coastal Resources Management Council
 - 100.1 Tidal Waters, Shoreline Features, and Contiguous Areas
 - 100.2 Inland of Shoreline Features and Contiguous Areas
 - 100.3 Critical Coastal Areas
 - 100.4 Freshwater Wetlands in the Vicinity of The Coast
- Section 110 Applications for Category A and Category B Council Assents
 - 110.1 Category A Applications
 - 110.2 Category B Applications
 - 110.3 Substantive Objections
 - 110.4 Findings of No Significant Impact
- Section 120 Variances
- Section 130 Special Exceptions
- Section 140 Setbacks
- Section 145 Climate Change and Sea level Rise
- Section 150 Coastal Buffer Zones
- Section 160 Fees
- Section 170 Violations and Enforcement Actions
- Section 180 Emergency Assents

Part Two. Areas Under Council Jurisdiction

- Section 200 Tidal and Coastal Pond Waters
 - 200.1 Type 1 Conservation Areas
 - 200.2 Type 2 Low-Intensity Use
 - 200.3 Type 3 High-Intensity Boating
 - 200.4 Type 4 Multipurpose Waters
 - 200.5 Type 5 Commercial and Recreational Harbors
 - 200.6 Type 6 Industrial Waterfronts and Commercial Navigation Channels

- Section 210 Shoreline Features
 - 210.1 Coastal Beaches
 - 210.2 Barrier Islands and Spits
 - 210.3 Coastal Wetlands
 - 210.4 Coastal Headlands, Bluffs, and Cliffs
 - 210.5 Rocky Shores
 - 210.6 Manmade Shorelines
 - 210.7 Dunes

- Section 220 Areas of Historic and Archaeological Significance

Part Three. Activities Under Council Jurisdiction

- Section 300 In Tidal and Coastal Pond Waters, on Shoreline Features and Their Contiguous Areas
 - 300.1 Category B Requirements
 - 300.2 Filling, Removing, or Grading of Shoreline Features
 - 300.3 Residential, Commercial, Industrial, and Recreational Structures

- 300.4 Recreational Boating Facilities
- 300.5 Mooring and Anchoring of Houseboats and Floating Businesses
- 300.6 Treatment of Sewage and Stormwater
- 300.7 Construction of Shoreline Protection Facilities
- 300.8 Energy-Related Activities and Structures
- 300.9 Dredging and Dredged Materials Disposal
- 300.10 Filling in Tidal Waters
- 300.11 Aquaculture
- 300.12 Coastal Wetland Mitigation
- 300.13 Public Roadways, Bridges, Parking Lots, Railroad Lines and Airports
- 300.14 Maintenance of Structures
- 300.15 Municipal Harbor Regulations
- 300.16 Boat Lift and Float Lift Systems
- 300.17 Wetland Walkover Structures
- 300.18 Submerged Aquatic Vegetation and Aquatic Habitats of Particular Concern

- Section 310 Alterations to Freshwater Flows to Tidal Waters and Water Bodies and Coastal Ponds
- Section 320 Inland Activities and Alterations That Are Subject to Council Permitting
- Section 325 Activities Located within Critical Coastal Areas
- Section 330 Guidelines for the Protection and Enhancement of the Scenic Value of the Coastal Region
- Section 335 Protection and Enhancement of Public Access to the Shore
- Section 400 Federal Consistency
