

Rhode Island Grade Span Expectations for Civics & Government and Historical Perspectives/Rhode Island History

Introduction

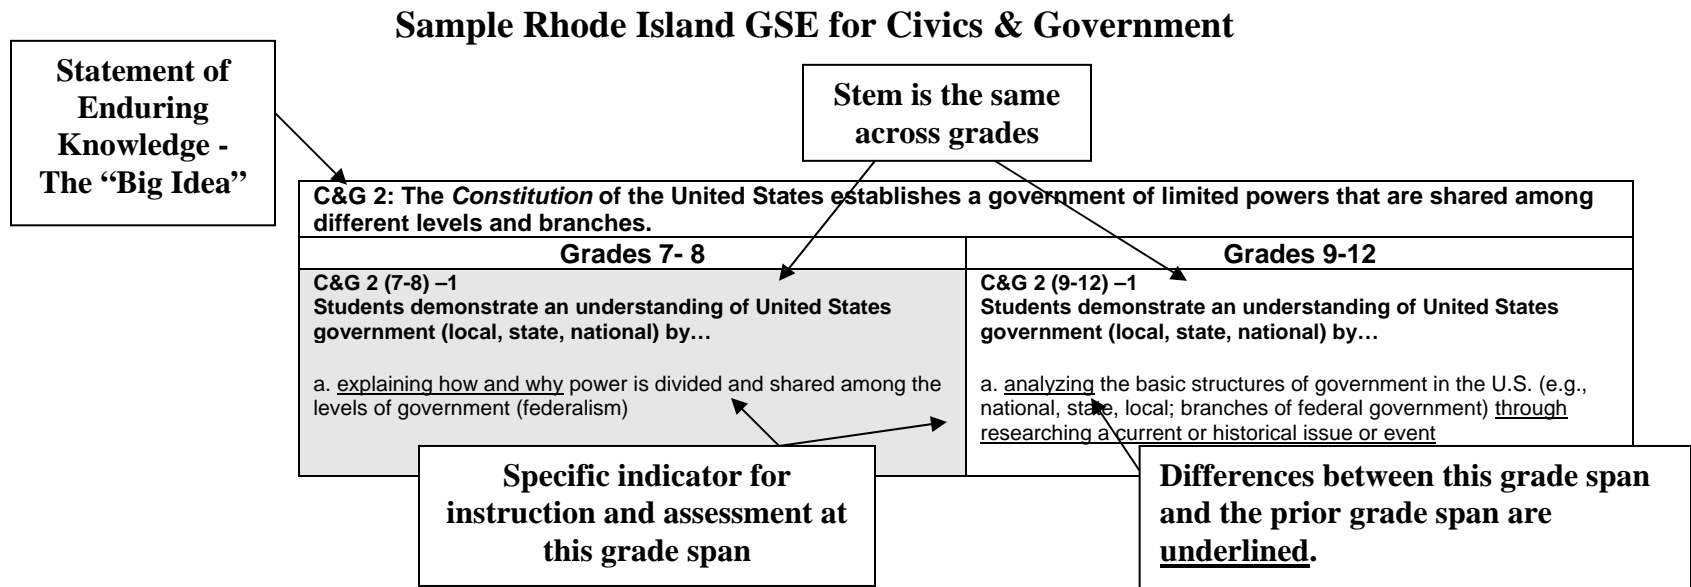

These Rhode Island Grade Span Expectations (GSEs) for Civics & Government and Historical Perspectives/Rhode Island History have been developed as a means to identify the content knowledge and skills expected of all students (grades K-high school). **GSEs are meant to capture the “big ideas” of civics and history that can be taught and assessed, without narrowing the curriculum locally.** They *are not intended* to represent the full curriculum for instruction and assessment locally, nor are they meant to simply replace existing social studies curriculum. The set of GSEs includes concepts and skills intended to be for local assessment purposes only. Generally speaking, Grade Span Expectations – at any grade – represent content knowledge and skills that have been *introduced instructionally at least one to two years before* students are expected to demonstrate confidence in applying them independently.

As you read these Grade Span Expectations, the following ideas are important to understand:

1. **Civics & Government and Historical Perspectives/Rhode Island History are the only two social studies strands included in these GSEs.** It is expected that local social studies curriculum frameworks would also include other strands, such as culture, geography, and economics.
2. **All of the concepts and skills identified at a given grade span are considered “fair game” for assessment purposes** at the local school/district level. GSEs for grades 9-12 are intended to be used in making decisions about **proficiency** in social studies. Extended Learning GSEs (Ext/high school only) are included as *suggested learning that goes beyond proficiency*.
3. **Because GSEs identify “assessable” content and skills, the use of conjunctions** throughout this document have specific meaning. The use of the conjunction “or” means that a student may be expected to be assessed on all or some of the elements of the GSE at a given time. The use of “and” between elements of a GSE means that the *intent* is to assess all parts of the GSE together. Sometimes “or” is used when students have choices about how they will respond (e.g., researching a current OR historical issue OR event).
4. **Each GSE includes several parts.**
 - a. **An overarching Statement of Enduring Knowledge identifies the “big ideas” of the discipline.** Enduring Knowledge is defined as understandings that have enduring value beyond a single lesson, unit of study, or grade level; are at the heart of the discipline (“doing” the subject); uncover abstract, complex, or often misunderstood ideas; and can be used to frame *essential questions for learning* (e.g., What are the purposes and functions of government? How does one become a citizen?).
 - b. **A statement in bold, called the “stem,”** is the first part of each GSE. Each “stem” is the same across the grades for a given GSE, and is meant to communicate the main curriculum and instructional focus across the grades for the related big idea. There are often several stems for each big idea.
 - c. **The non-bold text** within a GSE indicates how the GSE is specified at a given grade span. There are often are several indicators for each GSE stem. Don’t forget to read each indicator (a, b, c, etc.) WITH the stem.
 - d. **Differences between adjacent grades** are underlined. (Note: Sometimes nothing is underlined within a GSE. In these situations, differences in adjacent grades assume increasing complexity or perhaps broadening the scope of the content or skills.)

Rhode Island Grade Span Expectations for Civics & Government and Historical Perspectives/Rhode Island History

5. Each RI GSE is coded for the content area, the grade span, the GSE “stem” number, and the specific indicator for that GSE stem. [E.g., “C&G 2—(9-12)-1.a” means C&G 2 (Civics & Government, 2nd Statement of Enduring Knowledge) – 9-12 (grade span 9-12/Proficiency) - 1 (1st GSE “stem”) – a (the first specific indicator for the 1st GSE stem under C&G 2).]

- The Statement of Enduring Knowledge identifies “the why” – Why is this topic/concept important for me to learn?
- The GSE stem identifies “the what” – What is the focus of the big idea (Statement of Enduring Knowledge) for instruction and assessment?
- The indicators following each stem identify “the how” – How will students demonstrate what they know and can do at each grade span to show understanding?

Rhode Island Grade Span Expectations for Civics & Government and Historical Perspectives/Rhode Island History

APPENDIX A - Glossary of Terms

Amendment – (constitutional) changes in, or additions to, a constitution; proposed by a two-thirds vote of both houses of Congress or by a convention called by Congress at the request of two-thirds of the state legislatures; ratified by approval of three-fourths of the states

Anarchy – political and social disorder due to the absence of government control: *The death of the king was followed by a year of anarchy.*

Artifact – an object made or used by man that is of archeological or historical interest (e.g., tools, weapons, ceramics, pieces of furniture, etc.)

Authority – the right to control or direct the actions of others, legitimized by law, morality, custom, or consent: *According to the Constitution of the United States, the executive branch, namely the President, has the authority to veto laws approved by Congress.*

Autocracy – a form of government in which one person possesses unlimited power: *A monarchy is a type of autocracy.*

Bill – a form or draft of a proposed law presented to a legislature: *A bill must pass in both chambers of Congress before it can become law.*

Bill of Rights – the First Ten Amendments to the Constitution of the United States; ratified in 1791, these amendments limit government power and protect basic rights and liberties of individuals

Branches of Government – the three branches of the federal government are the Executive (President), Legislative (Congress: Senate and House of Representatives), and Judicial (Supreme Court)

Brown v. Board of Education (1954) – a Supreme Court case which declared that “separate-but-equal” educational facilities are inherently unequal and therefore a violation of equal protection of the law guaranteed by the Fourteenth Amendment

Boycotting – voluntarily abstaining from using, buying, or dealing with a person, organization, or product as an expression of protest – usually motivated by sociopolitical reasons

Buycotting – voluntarily choosing to use, buy, or deal with a specific person, organization, or product as an expression of support – usually for sociopolitical reasons; the opposite of boycott

Checks and Balances – the system whereby each branch of an organization can limit the powers of other branches. This system is enacted through the Constitution of the U.S. in order to prevent any of its three branches (executive, legislative, and judicial) from dominating the Federal government: *e.g. Congress (legislative) has the power to declare war, the President (Executive) has the power to veto bills passed by Congress, and the Supreme Court (Judicial) has the power to interpret laws. e.g., the Senate must confirm major executive appointments, and the courts may declare acts of Congress unconstitutional*

Chronicle – (n) an account, description, record, history, narration, story, journal, or diary of events; (v) to record, recount, narrate, or write down to keep track of events

Chronology – the study of history is grounded in chronology; the main way historians arrange events and trends in history to see patterns of continuity and change in history; understanding the order of events is crucial to understanding, analyzing, or explaining the importance or meaning of events

Rhode Island Grade Span Expectations for Civics & Government and Historical Perspectives/Rhode Island History

Citizen – a native or naturalized member of a state or nation who owes allegiance to its government and is entitled to its protection, privileges, or franchises (distinguished from Alien): *Citizens of the United States have United States passports to prove their U.S. citizenship when visiting another country.*

Citizenship – the status of being a member of a state or country, one who promises allegiance to the nation and is entitled to its protection and to political rights

Civic – of or pertaining to citizenship; civil: *civic duties.*

Civics – the study of citizenship and government

Civil – of or pertaining to, or consisting of citizens; civil life; civil society or of citizens in their ordinary capacity, or of the ordinary life and affairs of citizens as distinguished from military or religious life and affairs

Civil liberties – areas of personal freedom with which governments are constrained from interfering

Civil rights – protections and privileges of personal liberty given to all citizens by law, rights bestowed by nations on those within the territorial boundaries: *e.g. Thirteenth and Fourteenth Amendments to the Constitution.*

Common good (public good) – the good of the community

Constitutional government (constitutionalism) – the idea that the powers of government should be distributed according to a written or unwritten constitution and that those powers should be effectively restrained by the constitution's provisions

Debate – a discussion, as of a public question in an assembly, involving opposing viewpoints: *a debate in the Senate on farm price supports.*

Democratic ideals – is a rhetorical phrase used to denote either personal qualities or standards of government behavior that are felt to be essential for the continuation of a democratic policy. e.g., individual dignity, equality, liberty, freedom, legitimate authority, privacy, responsibility, justice, etc.: *e.g. advocates for greater equality in the distribution of wealth will argue that inequalities create differing levels of opportunity and that equality is a democratic ideal.*

Democracy – government by the people; a form of government in which supreme power is vested in the people and exercised directly by them or by their elected agents under the electoral system: *The U.S. and Canada are democracies.*

Dictatorship – A country, government, or the form of government in which absolute power – usually gained and maintained by force – is exercised by a ruler or small group not restricted by a constitution, laws, opposition, etc. to be held responsible to the will of the people; a form of totalitarianism: *Cuba has been called a dictatorship even though it espouses communism.*
