## ***INTRODUCTION***

These *Rules and Regulations for the Licensing of Chemical Dependency Professionals (R5-69-CDP)* are promulgated pursuant to the authority conferred under sections 42-35 and 5-69 of the General Laws of Rhode Island, as amended. These regulations are established for the purpose of adopting prevailing standards for the licensure of chemical dependency professionals and chemical dependency clinical supervisors in this state.

In accordance with the provisions of section 42-35-3(c) of the General Laws of Rhode Island, as amended, consideration was given to: (1) alternative approaches to the regulations; and (2) duplication or overlap with other state regulations. Based upon available information, no known alternative approach, duplication, or overlap was identified. The protection of the health, safety and welfare of the public necessitates the adoption of these regulations.

These regulations shall supersede any previous rules and regulations related to the licensure of chemical dependency professionals and chemical dependency clinical supervisors promulgated by the Rhode Island Departments of Health or Mental Health, Retardation, and Hospitals and filed with the Secretary of State.
