Chaichin asked about having an electronic Table Of Contents (TOC) to state Agencies and the electronic documents they have available on their websites. Greg has been cataloging these. He indicated that he is working on such a list. Some IT issues exist- workarounds could include having an electronic TOC which a depository library or consortium can post on a website and/or having a catalog record in State House Library catalog which would link to the TOC to see holdings.

NASCLA for the web.
