

Healthcare Quality Reporting Program

**HOSPITAL-ACQUIRED INFECTIONS AND PREVENTION ADVISORY SUBCOMMITTEE**

8:00-9:00am, 8/19/13 at Healthcentric Advisors

**Goals/Objectives**

- To discuss HAI work to date and make policy recommendations for pending and upcoming reports

**Members**

8:00am	<p><b>Welcome &amp; Administrative Updates</b>  <i>Leonard Mermel, DO, ScM</i>  <i>Samara Viner-Brown, MS</i></p> <ul style="list-style-type: none"> <li>- Len welcomed participants, reviewed the meeting objectives and reviewed the previous meeting's action items:           <ul style="list-style-type: none"> <li>• <b>Share Yongwen's published paper with the group, when available (Rosa/Emily) – Completed</b>                The paper was shared with the HAI Subcommittee.</li> <li>• <b>Follow up with Dr. Bandy re: SNF CRE reporting (Sam) – Pending</b>                Sam was unable to attend the meeting, but Rosa will follow up with her regarding the status of this action item.</li> <li>• <b>Share a new quarterly meeting schedule for FY 2014 (Emily/Ann) – Completed</b>                The Subcommittee will now meet every other month; see below for upcoming meeting dates.</li> <li>• <b>Align four- and two-week submission reminders with CMS calendar (Ann) – Pending</b>                CMS's quarterly data submission deadlines are: February 15, May 15, August 15, and November 15. Ann will send the four- and two-week submission reminders based on these dates.</li> </ul> </li> </ul>
--------	---

Time	Topic/Notes
	<ul style="list-style-type: none"> <li>• <b>Write letter about obtaining MRSA CLABSI from NHSN (Rosa/Emily) – Completed</b> Rosa and Emily drafted letter to be shared with the Subcommittee; see below.</li> </ul>
8:05am	<p><b>MRSA CLABSI letter</b> <i>Rosa Baier, MPH</i></p> <ul style="list-style-type: none"> <li>– <b>Review draft (handout)</b> Rosa shared the MRSA CLABSI letter that was requested by the Subcommittee at the previous meeting. The goal of the letter is to inform the hospitals of the new reporting procedure. She explained that we plan to send this letter out to the members of the HAI Subcommittee, to be shared with the appropriate persons at their hospitals. This method of circulation was recommended by Len, who had previously noted that the appropriate recipient could differ by hospital.</li> <li>– <b>Discussion</b> Gina wondered if it would be better to send the letters directly to the hospital CEOs. Julie agreed, adding that not all hospitals are present at the Subcommittee, even though they are on the email distribution list. The group agreed that sending it to the CEOs would be best.  Liz Martino asked whether the MRSA CLABSI data are from the ICU only, or the whole hospital. Rosa will check with Maureen and Blake.  Julie asked whether the letter should explain that the rights to use this data had been conferred to Healthcentric Advisors. Rosa responded that hospitals have conferred rights to Maureen (Healthcentric Advisors), with the verbal agreement that Healthcentric Advisors would use the data for public reporting. This was done because the hospitals were hesitant to confer rights directly to the state. Gina said the state has an MOU with Healthcentric Advisors, and that Healthcentric Advisors’ use of the data fall under that MOU. Marlene also suggested referencing the MOU in the letter.  Overall, the group discussed several edits to the letter, including: <ul style="list-style-type: none"> <li>• Sending it to the Hospital CEOs</li> <li>• Copying the Subcommittee and Infection Preventionists</li> <li>• Referencing Healthcentric Advisors’ access to the NHSN data</li> <li>• Holding the letter back until the flu reports are finalized, and including that report with the letter (discussed below)</li> </ul> </li> </ul>
8:15am	<p><b>Healthcare worker flu vaccination</b> <i>Rosa Baier, MPH</i> <i>Emily Cooper, MPH</i></p> <ul style="list-style-type: none"> <li>– <b>Review data (draft)</b> Emily distributed draft copies of this past season’s data for discussion. She explained that the trend graph showed the changes in vaccination rates since the 2009-2010 flu season; the Methods report delineates what is collected and how it is displayed; and the Care Outcomes report provides data for consumers. She noted that the previous Care Outcomes reports used a horizontal bar graph and the new report uses a vertical bar graph, with a plot line to show the state average for each category.  Emily also commented that while we had hoped to include reasons for declination (e.g., the barrier data collected in past years), those data were not collected this year. Pat Masters asked if contracting Guillan-Barre syndrome was a possible reason for declining vaccination; she recently heard providers mention a link. Nicole Alexander</li> </ul>

Time	Topic/Notes
	<p>said that is not a likely reason, and Rosa commented that the CDC tracks adverse events associated with vaccines.</p> <ul style="list-style-type: none"> <li>- <b>Discuss 2012-2013 data</b></li> </ul> <p>Gina noted that South County Hospital, which has flu vaccination as a condition of employment, has an employee vaccination rate of 100%. She said that HARI has a draft policy to make flu vaccinations a condition of employment for all credentialed employees, as an expansion on the state regulation; however, the group reviewing the document could not come to agreement. HARI will revisit the topic again in September, focusing on whether or not the policy should apply equally to all healthcare workers. Members of HARI's review group include ICPs, HR directors, HEALTH, and employee health.</p> <p>Overall, the group discussed several edits to the reports, including:</p> <ul style="list-style-type: none"> <li>• Referencing the new rules and regulations</li> <li>• Including Bradley Hospital</li> <li>• Sending the draft to Employee Health staff for review.</li> <li>• Including the Care Outcomes report with the MRSA CLABSI letter; these reports have not been sent to the hospital CEOs in past years, but this is the first report since the new rules and regulations</li> </ul>
8:35am	<p><b>Consumer-friendly report format</b>  <i>Rosa Baier, MPH</i></p> <ul style="list-style-type: none"> <li>- <b>Update from AHRQ home health reporting grant</b></li> </ul> <p>Rosa updated the group on a 3-year grant that Healthcentric Advisors received from the Agency for Healthcare Research and Quality (AHRQ) to collect information about consumer preferences for home health public reports, then create a consumer-centric report that addresses these needs. The idea is to use the grant to create infrastructure for the HEALTH website that is scalable to other provider settings, including hospitals and HAIs.</p> <p>As part of the grant, Rosa and Emily met with 28 case managers in five hospitals to discuss how patients select home health agencies upon discharge. They also conducted two patient/family focus groups.</p> <p>One of the key learnings – relevant to this group – is that none of the case managers use the reports made available by the public reporting program to inform patients about the various home health agencies. However, case managers from at least one hospital were using a 5-6 years old nursing home report from the Division of Facilities Regulation. The report was not designed for consumers and therefore does not provide data in a way that is helpful to patients. Rosa explained that case managers were using this because they want a printable document that includes all providers on a single sheet of paper, so they can share it with patients and family members.</p> <ul style="list-style-type: none"> <li>- <b>Discuss addition of a report with all hospital data</b></li> </ul> <p>Rosa brought up the idea of creating a new report format for hospitals that would include all of the currently reported HAI measures. The purpose of this would be to provide consumers with a single document that included all of the available measures for all of the hospitals, addressing some of the needs identified in the AHRQ grant. The purpose of the reporting program is two-fold; to increase consumer awareness and to improve quality.</p> <p>Gina asked whether it was possible to use Google Analytics to determine whether</p>

Time	Topic/Notes
	<p>people are visiting the site and looking at the reports.</p> <p>The group agreed with pulling HAI and other hospital data into a single format. Julie suggested including other measures that are in Hospital Compare such as the clinical quality measures and the HCAHPS measures. Other suggested including state citation data, and Pat recommended having links to all of the related reports in one place.</p> <p>Pat suggested preparing a mock up report to present to the group. Emily is working on a mock-up and will share a blinded copy with the group.</p>
8:50am	<p><b>Upcoming meeting schedule</b>  <i>Rosa Baier, MPH</i></p> <p>– <b>Discussion:</b></p> <p>Rosa shared the meeting schedule for the rest of the calendar year and reminded everyone that we will now be meeting every other month. The meeting schedule for the remainder of this calendar year is as follows:</p> <ul style="list-style-type: none"> <li>• October 21, 2013</li> <li>• December 16, 2013</li> </ul> <p>Rosa then checked with the group to make sure that the current meeting day/time (Mondays at 8am) still worked with everyone’s schedule. The group agreed that this is still the preferred day/time for meeting.</p>
8:55am	<p><b>Open Forum &amp; Action Items</b>  <i>Rosa Baier, MPH</i></p> <p>– <b>Action items:</b></p> <ul style="list-style-type: none"> <li>• Align four- and two-week submission reminders with CMS calendar (Ann)</li> <li>• Follow up with Dr. Bandy re: SNF CRE reporting (Sam)</li> <li>• Revise MRSA CLABSI letter and send to Hospital CEOs (Rosa/Emily)</li> <li>• Determine whether the MRSA CLABSI data are ICU or hospital wide (Rosa)</li> <li>• Send out preview of hospital flu reports (Ann/Emily)</li> <li>• Create preliminary draft of consumer-friendly report format for hospitals (Emily)</li> <li>• Outreach to Bradley Hospital for flu data (Rosa/Emily)</li> <li>• Research Google Analytics for the hospital reports (Emily)</li> </ul> <p>– <b>Next meeting:</b> October 21, 2013</p>

Department of Health

Three Capitol Hill  
Providence, RI 02908-5097

TTY: 711

August XX, 2013

Dear HAI Subcommittee,

As part of the Rhode Island Department of Health's (HEALTH's) ongoing efforts to encourage high-quality, evidence-based health care, we want to officially notify you of recent changes in the public reporting program's healthcare-acquired infections (HAI) reporting:

**Beginning with the most recent reporting deadline (XX, 2013), we are now collecting Methicillin-resistant *Staphylococcus aureus* Central Line-Associated Bloodstream Infection (MRSA CLABSI) data via the National Hospital Surveillance Network (NHSN). We will no longer be distributing a Survey Monkey survey to collect this data on a quarterly basis.**

This change in reporting policy is intended to align hospital submission requirements for public reporting with existing Centers for Medicare & Medicaid Services (CMS) data submission requirements and timeline, in order to streamline the data submission process and lessen the administrative burden.

**Please note:**

- All acute-care hospitals should continue to report data through the NHSN, as mandated by CMS.
- The MRSA CLABSI state reporting deadlines will now follow the timeline set by CMS as part of their NHSN reporting guidelines, which can be found here: XX.
- At the committee's request, the public reporting program will continue to send data submission reminders, now aligned with the CMS data submission deadlines.

**Please share this letter with the staff responsible for data submission and members of your administration, as appropriate.**

We thank you for your participation in the public reporting program, and look forward to continuing our collaborative work to improve the health of all Rhode Islanders.

Sincerely,

A handwritten signature in cursive script, appearing to read "Samara Viner-Brown".

Samara Viner-Brown, MS  
Chief, Center for Health Data and Analysis

A handwritten signature in cursive script, appearing to read "Len Mermel".

Len Mermel, DO, ScM, AM (Hon)  
HAI Subcommittee Co-Chair

CC: Rosa Baier, MPH, Rhode Island HAI Coordinator
