Time Topic/Notes

- | | |
|--------|---|
| 3:00pm | <p>Welcome
 <i>Rosa Baier, MPH</i>
 <i>Gail Patry, RN</i></p> <ul style="list-style-type: none"> - Gail welcomed the subcommittee members and went over the objectives for the meeting. - Previous meeting's action items: <ul style="list-style-type: none"> • Share aggregate satisfaction reports with the subcommittee (Emily) – Complete
 The Satisfaction Report has been published and was shared with the Subcommittee during the meeting. • Meet with Andrew Powers in March (Rosa) – Complete
 Rosa and Gail met with Drew Powers recently to discuss citations and warnings for facilities that were not compliant with the 2013 satisfaction survey; see discussion below. • Populate summary report and share with committee (Emily/Rosa) – Complete
 The Nursing Home Summary Report has been published and was shared with the Subcommittee during the meeting • Outreach to facilities regarding reporting requirements in the Spring (Gail) – Pending
 Gail will be working with Emily and Rosa to create a handout that describes all the various reporting requirements (flu doses, employee flu vaccination, satisfaction, |
|--------|---|

Time	Topic/Notes
	<p>etc.) and communicate directly to facilities. Hugh suggested ensuring that the information goes to regional directors.</p>
	<ul style="list-style-type: none"> - Google Analytics (handout)
	<p>Emily shared the Google Analytics reports for the nursing home page and the main page of the public reporting program and reviewed the different columns of information.</p>
3:05pm	<p>Resident and Family Satisfaction Surveys</p>
	<p><i>Rosa Baier, MPH</i></p>
	<p><i>Emily Cooper, MPH</i></p>
	<ul style="list-style-type: none"> - Executive Summary and Report (handouts)
	<p>The group reviewed the Executive Summary and discussed some of the highlights and opportunities, many of which were consistent with previous years' results. Rosa noted that the results of the 2013 survey continue to show that RI nursing homes are outperforming the nation.</p>
	<p>Hugh commented about the response rates, saying he was not pleased with the family response rate for his facility. He noted that his facility does send several reminders to family members to complete the survey, but these reminders have not increased the return rate. Rosa and Emily suggested asking MyInnerView for tips.</p>
	<p>Hugh asked if it would be possible to obtain more actionable information about some of the responses (e.g., dining environment, food, concern of staff). Rosa and John mentioned that MyInnerView has drill-down surveys available online for nursing homes to conduct root cause analysis. Emily also mentioned a My InnerView call scheduled for Thursday, 3/13 at 8:30am:</p>
	<p>https://cc.readytalk.com/cc/s/registrations/new?cid=4d86123ef1id</p>
	<p>The final remaining task from 2013 is to issue a press release; Rosa and Sam will work with HEALTH's Communications Department and run a draft by LeadingAge and RIHCA's press contacts.</p>
	<p>Rosa asked the group to begin thinking ahead to the 2014 survey. In the past, the committee has recommended continuing with MyInnerview and the current instrument (which now includes the custom questions); will we want the same recommendation this year? AHCA is developing a five-question instrument to make available to vendors; will we want MyInnerView to include those questions? Would the group want to explore piloting them separately from MyInnerView?</p>
	<ul style="list-style-type: none"> - Audit and Citations
	<p>In 2012, the group recommended that facilities that fail the audit be referred to Facilities Regulations for state citations. The recommendation algorithm was as follows:</p>
	<p>Non-compliance includes nursing homes that excluded either resident or family member from their survey list (citation) and facilities that did not meet the benchmark set for their facility regarding the expected number of surveys sent to one or both categories (warning).</p>
	<p>After a series of discussions with Facilities Regulations, Rosa and Gail met with Drew Powers earlier this week. Given the date, we first updated the recommendations to reflect the 2013 audit results.</p>

Time	Topic/Notes
	<p>Emily distributed the 2013 audit and, together with Gail and Rosa, explained how the audit is performed and what the findings mean. Gail commented that it focuses on surveys sent to (not returned by) residents and family members and uses a very low threshold. For residents, the group looks at the number of beds, assumes an average occupancy percentage, lowers that for a percentage of long term care beds, and then further lowers that to the percentage of residents who are able to respond on their own or with assistance. The expectation for family members is 100% of those associated with long-stay residents.</p> <p>There were fewer non-compliant facilities this year than last year; however, Emily pointed out that many of the facilities who were non-compliant this year were also on the list last year. The increase in the rate of surveys sent may have increased based on reminder calls made to the facilities by members of the team.</p> <p>As a result of the 2013 audit, Facilities Regulations will be issuing three state citations and 10 warnings.</p>
3:45pm	<p>Discussion: Nursing Home Summary Report</p> <p><i>Rosa Baier, MPH</i> <i>Emily Cooper, MPH</i></p> <ul style="list-style-type: none"> - Summary Report <p>Rosa and Emily incorporated feedback from both the Nursing Home Subcommittee and from hospital case managers (via the Hospital Subcommittee) to ensure that report meets users' needs. The final report (handout) was published and also sent directly to case managers, in hopes that it replaces the outdated document many have been using. Sending it directly to case managers is a new approach, and we will continue to obtain their input and track web statistics. We have heard some positive feedback and a request that we add the street address of nursing homes so that patients/family members can easily locate the facilities for visits. That edit is pending.</p> - Capabilities Directory <p>We also partnered with Healthcentric Advisors to collect additional information that the Safe Transitions team will use to create a longer, more exhaustive directory of nursing home capabilities for hospital and ED case managers. This is intended to serve as a resource for case managers, not patients.</p> - Discussion <p>The group discussed the questions sent with the agenda:</p> <ul style="list-style-type: none"> • How can we ensure we are getting this information to consumers? • How can we make sure we are getting this information to case managers/discharge planners? • How can we determine if this report is successful? <p>John asked that the team review the wording for of one of the columns: number of skilled beds. Rosa and Emily will review the data source to ensure that the report heading accurately reflects the information captured from facilities.</p> <p>Rosa noted that whenever a column is updated with new data, the entire report will be updated and sent to the case managers.</p>
4:25pm	Open Forum & Next Steps

Rosa Baier, MPH

– **Centers for Medicare & Medicaid Services 11th Scope of Work (11SOW)**

Gail presented a brief outline of the 11SOW. Healthcentric Advisors is collaborating with Masspro and Qualidigm, the QIOs for Massachusetts and Connecticut. Together, we applied to serve as the QIO for all six New England states beginning in August. Healthcentric Advisors is the prime applicant, and MassPro (the Massachusetts QIO) and Qualidigm (the Connecticut QIO) will be subcontractors. Each organization will be responsible for implementing QIO activities in two states, under Healthcentric Advisors' direction. The contract will be for a period of five years, instead of three, which allows us additional time to make sustainable improvement and makes the work more consistent over time.

Healthcentric Advisors' February newsletter provides more details about our proposed approach. If you don't subscribe to our newsletter, you can access it via the archives at: www.healthcentricadvisors.org/newsletters.html

– **AHCA presentation on Safe Transitions**

Gail had an opportunity to showcase Rhode Island nursing homes' successes by presenting the Safe Transitions Best Practice Measures for Nursing Homes at AHCA's national conference in New Orleans. She stated that the presentation was very well received and resulted in connections with the company that purchased CharterCARE.

– **Action Items**

- Send information for MyInnview call (Emily)
- Request the custom question data from My InnerView (Emily)
- Create press release for Satisfaction Report (Rosa)
- Share the Safe Transitions Nursing Home Directory, when available (Emily/Rosa)
- Work with Facilities Regulations to issue citations and warnings (Gail/Rosa)

– **Next meeting: 4/15/14**

RHODE ISLAND

RESIDENT SATISFACTION

GLOBAL SATISFACTION AND RATINGS BY DOMAIN FOR 2013

(The total percentage listed may be higher or lower than individual rating totals due to rounding)

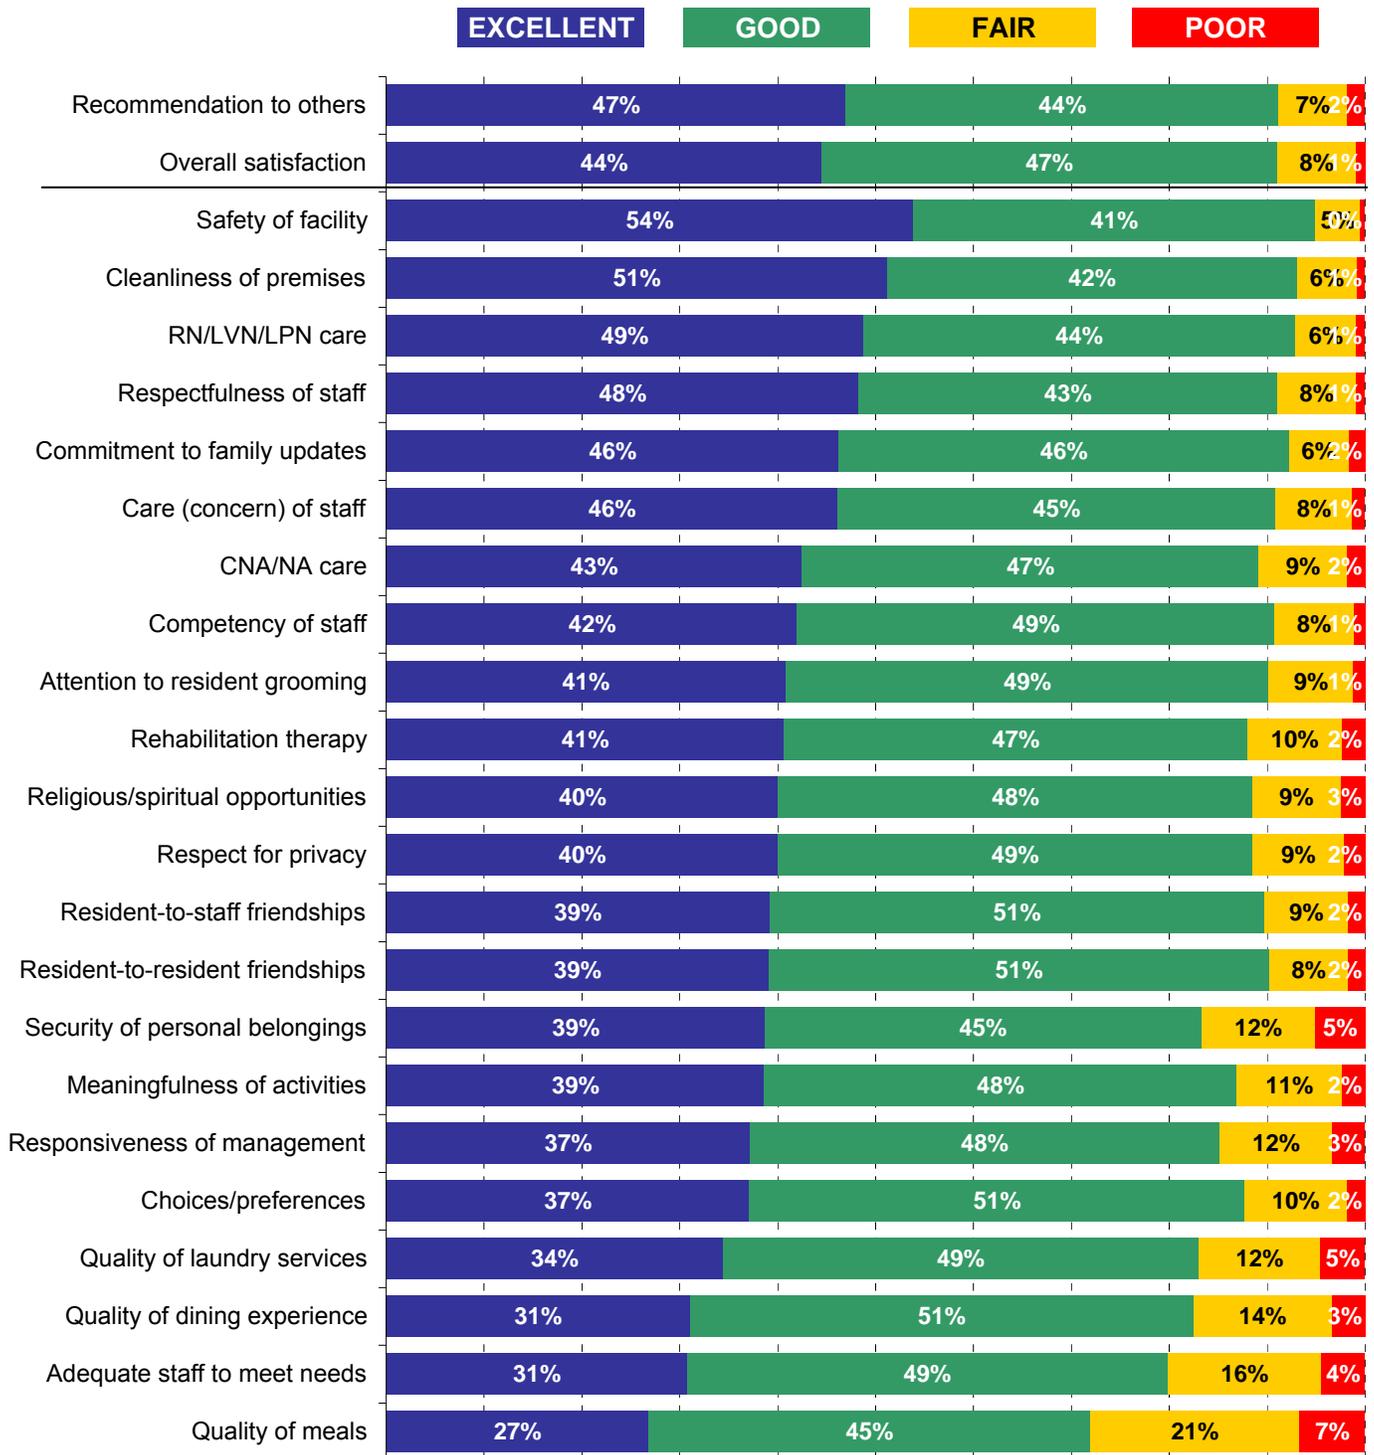

(May not total 100% due to rounding.)

RHODE ISLAND

RESIDENT SATISFACTION

ITEMS RANKED BY PERCENT "EXCELLENT" FOR 2013

2

Items are ranked from highest to lowest on the percent of responses rated "Excellent." The percentages reflect averages survey respondents. (May not total 100% due to rounding.) See chart 4 for comparison to prior years.

RHODE ISLAND

RESIDENT SATISFACTION

QUADRANT ANALYSIS: STRENGTHS AND OPPORTUNITIES

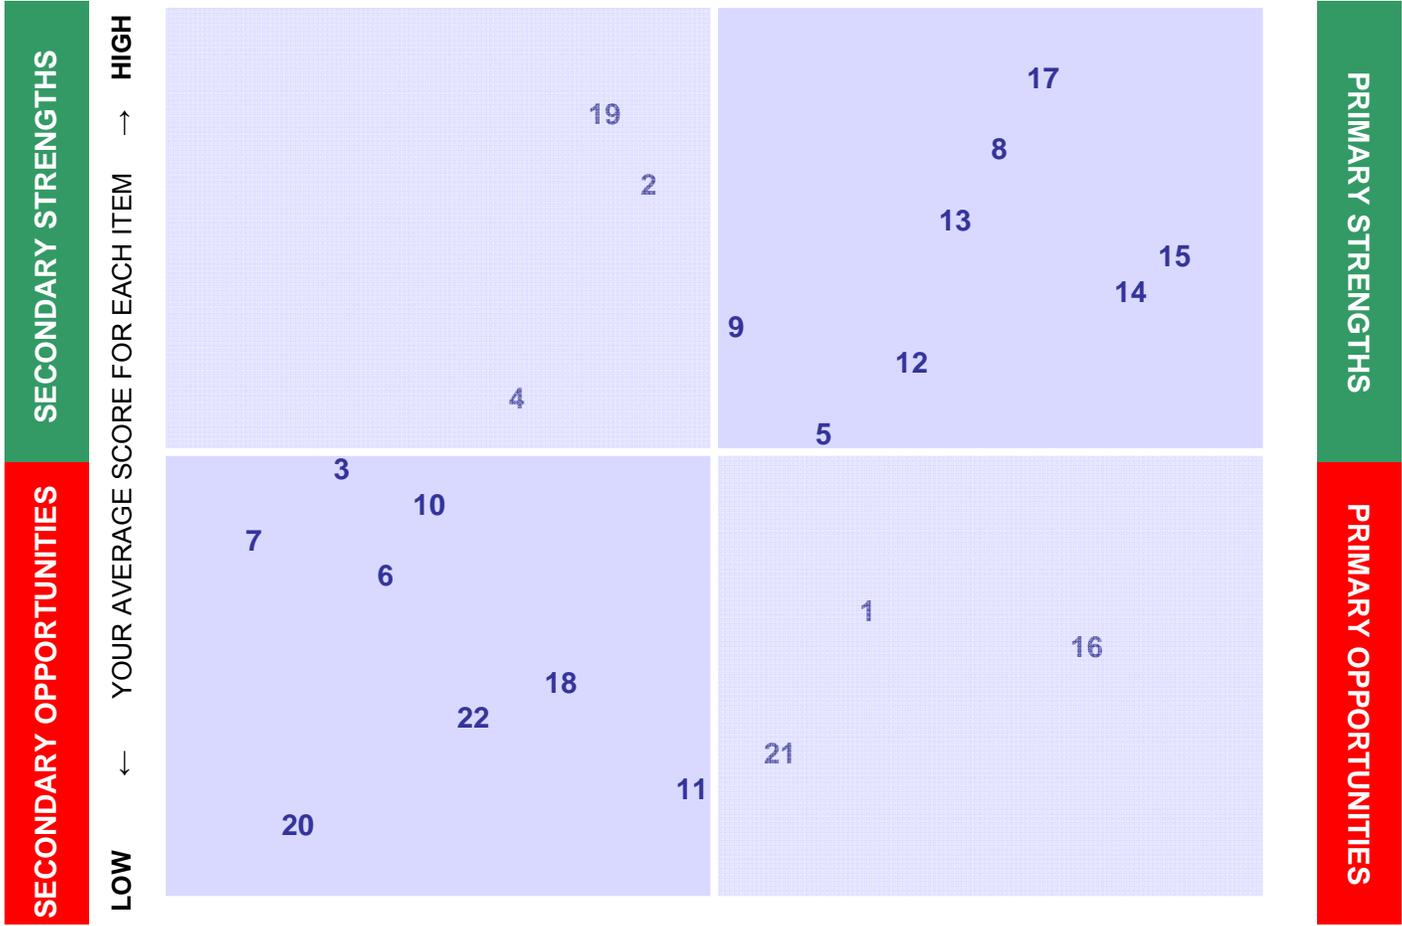

3

A

Quadrant A shows items of *lower* importance to "Recommendation" with a *higher* average score

Quadrant B shows items of *higher* importance to "Recommendation" with a *higher* average score

B

C

LOW ← IMPORTANCE TO RECOMMEND THIS FACILITY TO OTHERS → **HIGH**

Quadrant C shows items of *lower* importance to "Recommendation" with a *lower* average score

Quadrant D shows items of *higher* importance to "Recommendation" with a *lower* average score

D

The quadrant analysis plots the percentile rank of the average score on the satisfaction items against the percentile rank of the average "importance" score of each item and the question **What is your recommendation of this facility to others?** Items in the lower right quadrant are those that are most important to "Recommendation" but received the lowest scores.

See actual satisfaction items and report labels at end of section

RHODE ISLAND

SECONDARY STRENGTHS

Items with average scores above the midline but not as important to "Recommendation"

- 4 Resident-to-resident friendships
- 2 Respectfulness of staff
- 19 Cleanliness of premises

PRIMARY STRENGTHS

Items with average scores above the midline and more important to "Recommendation"

- 14 Competency of staff
- 15 Care (concern) of staff
- 5 Resident-to-staff friendships
- 12 Attention to resident grooming
- 13 Commitment to family updates
- 8 RN/LVN/LPN care
- 9 CNA/NA care
- 17 Safety of facility

SECONDARY OPPORTUNITIES

Items with average scores below the midline but not as important to "Recommendation"

- 11 Adequate staff to meet needs
- 18 Security of personal belongings
- 22 Quality of laundry services
- 20 Quality of meals
- 6 Meaningfulness of activities
- 10 Rehabilitation therapy
- 3 Respect for privacy
- 7 Religious/spiritual

PRIMARY OPPORTUNITIES

Items with average scores below the midline and more important to "Recommendation"

These are areas that represent a good opportunity for improvement.

PRIORITY ACTION AGENDA™

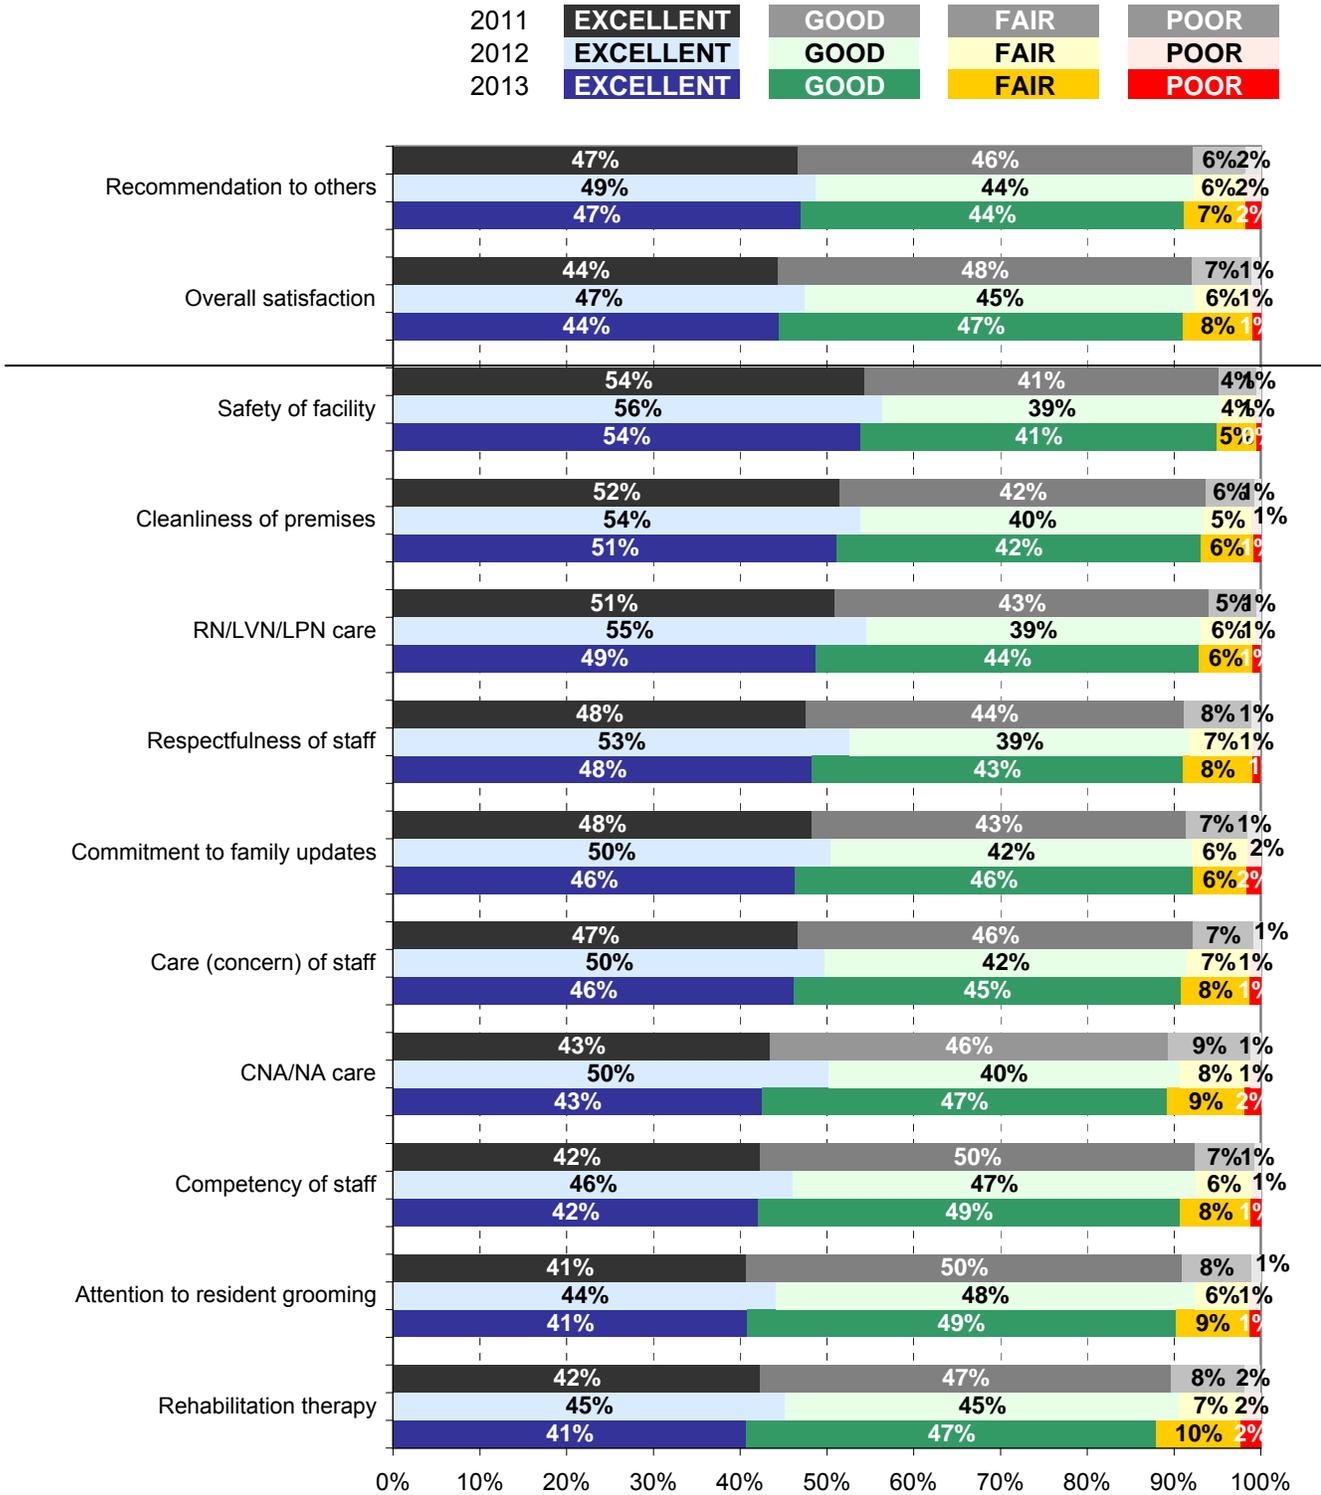

The top FIVE items in Quadrant D (*Primary Opportunities*) comprise your Priority Action Agenda and provide a focus for improving willingness to recommend your facility to others.

If Quadrant D has less than five items, the Priority Action Agenda will list only those items in the quadrant.

- 16** Responsiveness of management
- 21** Quality of dining experience
- 1** Choices/preferences

RESIDENT SATISFACTION

ITEMS RANKED BY PERCENT "EXCELLENT" FOR 2011, 2012 AND 2013

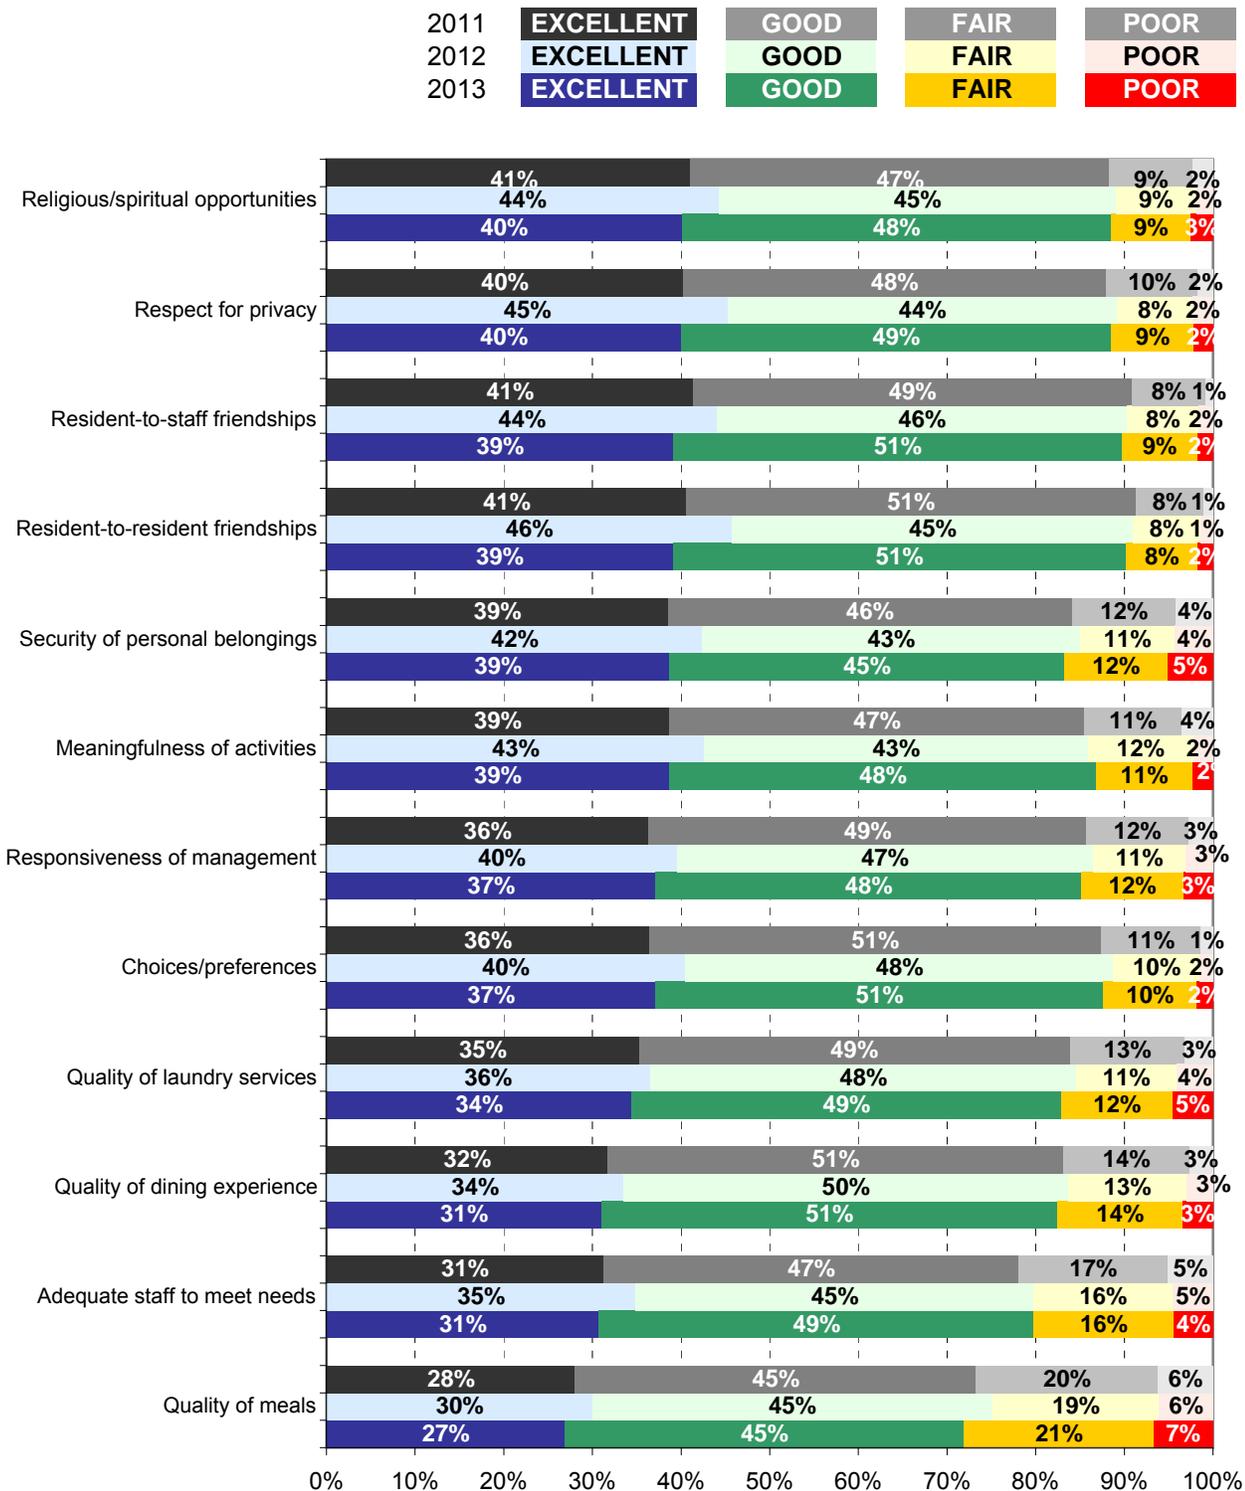

Items are ranked from highest to lowest on the percent of responses rated "Excellent" for the most recent year. (May not total 100% due to rounding.)

RHODE ISLAND

RESIDENT SATISFACTION

ITEMS RANKED BY PERCENT "EXCELLENT" FOR 2011, 2012 AND 2013

CONTINUED

Items are ranked from highest to lowest on the percent of responses rated "Excellent" for the most recent year. (May not total 100% due to rounding.)

RHODE ISLAND

Quadrant D shows items of *higher* importance to "Recommendation" with a *lower* average score

D

The quadrant analysis plots the percentile rank of the average score on the satisfaction items against the percentile rank of the average "importance" score of each item and the question **What is your recommendation of this facility to others?** Items in the lower right quadrant are those that are most important to "Recommendation" but received the lowest scores.

See actual satisfaction items and report labels at end of section

RHODE ISLAND

SECONDARY STRENGTHS

Items with average scores above the midline but not as important to "Recommendation"

- 19 Cleanliness of premises
- 3 Respect for privacy
- 13 Commitment to family updates

PRIMARY STRENGTHS

Items with average scores above the midline and more important to "Recommendation"

- 1 Choices/preferences
- 14 Competency of staff
- 9 CNA/NA care
- 15 Care (concern) of staff
- 5 Resident-to-staff friendships
- 8 RN/LVN/LPN care
- 17 Safety of facility
- 2 Respectfulness of staff

SECONDARY OPPORTUNITIES

Items with average scores below the midline but not as important to "Recommendation"

- 21 Quality of dining experience
- 18 Security of personal belongings
- 6 Meaningfulness of activities
- 22 Quality of laundry services
- 10 Rehabilitation therapy
- 20 Quality of meals
- 4 Resident-to-resident friendships
- 7 Religious/spiritual opportunities

PRIMARY OPPORTUNITIES

Items with average scores below the midline and more important to "Recommendation"

These are areas that represent a good opportunity for improvement.

PRIORITY ACTION AGENDA™

The top FIVE items in Quadrant D (*Primary Opportunities*) comprise your Priority Action Agenda and provide a focus for improving willingness to recommend your facility to others.

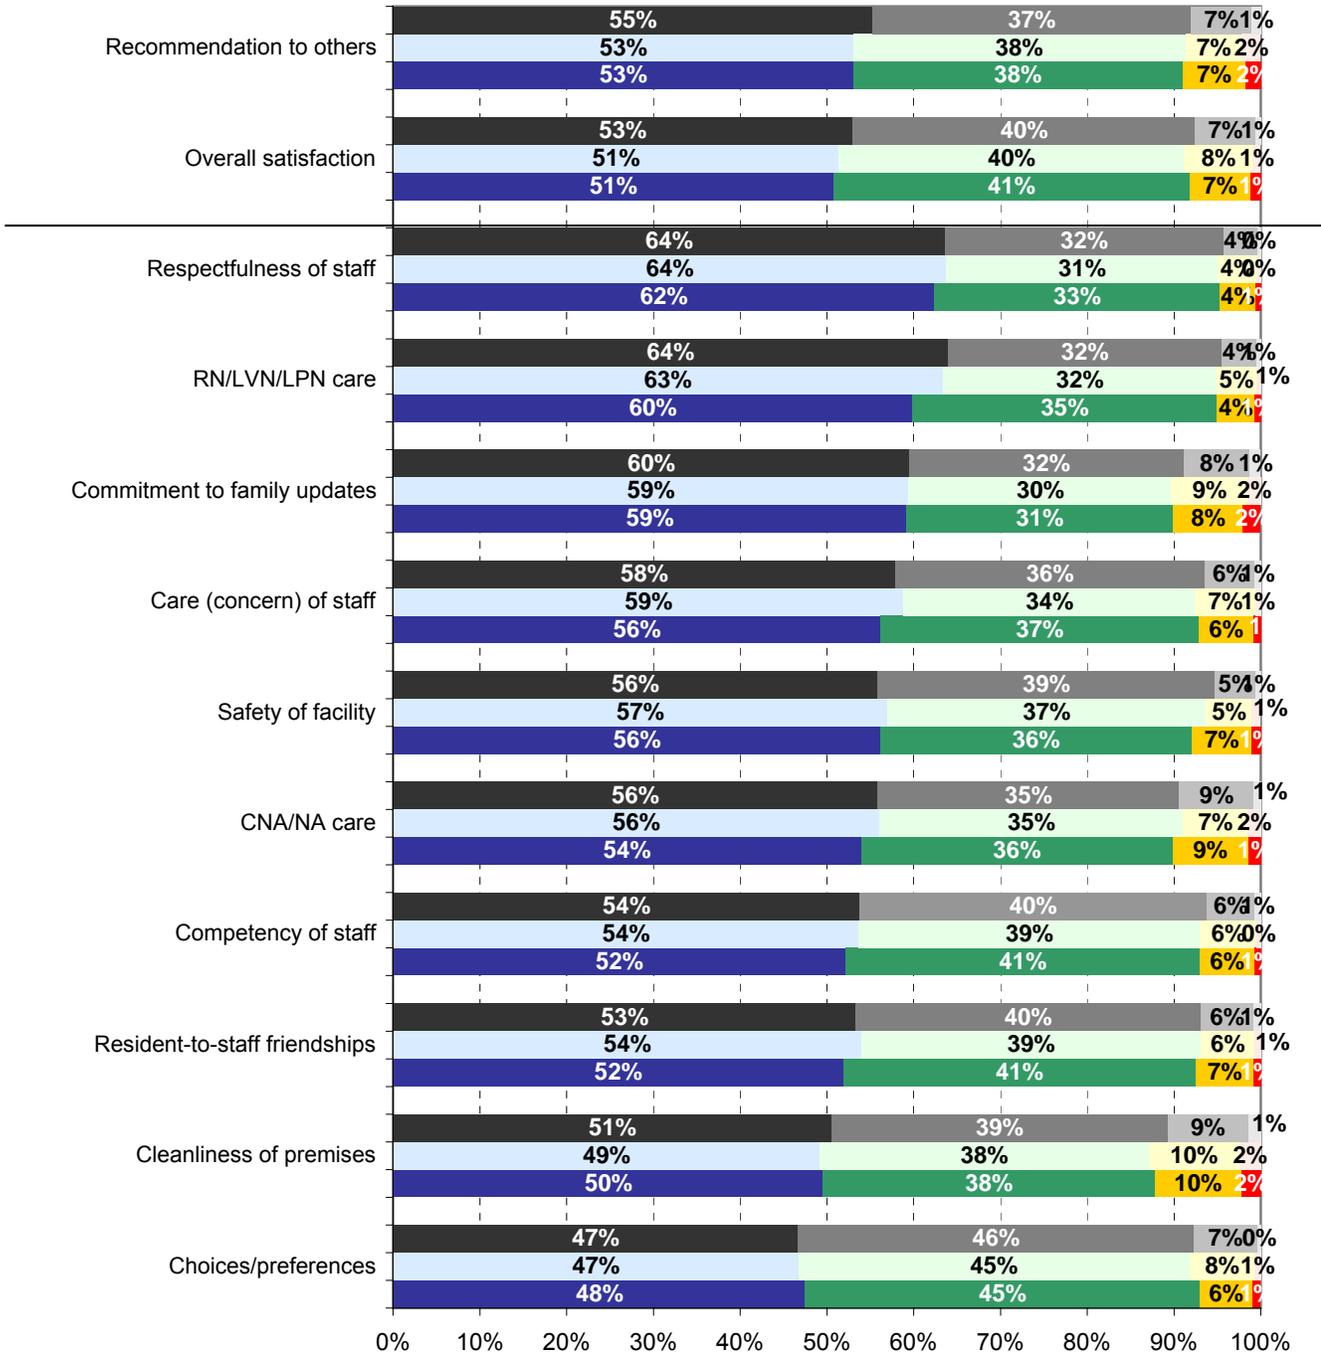

If Quadrant D has less than five items, the Priority Action Agenda will list only those items in the quadrant.

- 11 Adequate staff to meet needs**
- 16 Responsiveness of management**
- 12 Attention to resident grooming**

FAMILY SATISFACTION

ITEMS RANKED BY PERCENT "EXCELLENT" FOR 2011, 2012 AND 2013

Year	EXCELLENT	GOOD	FAIR	POOR
2011	EXCELLENT	GOOD	FAIR	POOR
2012	EXCELLENT	GOOD	FAIR	POOR
2013	EXCELLENT	GOOD	FAIR	POOR

Items are ranked from highest to lowest on the percent of responses rated "Excellent" for the most recent year. (May not total 100% due to rounding.)

Care (concern) of staff		83	85	83	80
Commitment to family updates		82	84	84	79
CNA/NA care		81	82	82	78
Competency of staff		81	83	82	79
Rehabilitation therapy		76	78	76	75
Attention to resident grooming		72	74	72	70
Adequate staff to meet needs		68	71	69	65
QUALITY OF SERVICE	Cleanliness of premises	78	81	79	75
	Responsiveness of management	76	78	77	74
	Quality of meals	70	72	71	68
	Quality of laundry services	69	70	70	67

All scores represent average scores across survey respondents. Each item was measured on a four-point scale:

Poor = 0 Fair = 33.3 Good = 66.7 Excellent = 100

Items are listed by domain as they appear in the survey. The shading in the Rural, Suburban and Urban columns reflects a comparison to the state average: Green = higher than the state average; yellow = same as the state average; red = lower than the state average.

Results are for 89 participating facilities.

RHODE ISLAND

FAMILY SATISFACTION

SKILLED NURSING FAMILY SATISFACTION SURVEY REFERENCE

ITEM NUMBER/LABEL	ORIGINAL SURVEY STATEMENT
GLOBAL SATISFACTION DOMAIN	
23 Overall satisfaction	How would you rate your overall satisfaction with this facility?
24 Recommendation to others	What is your recommendation of this facility to others?
QUALITY OF LIFE DOMAIN	
	Rate this facility on ...
1 Choices/preferences	Meeting the resident's/patient's choices and preferences
2 Respectfulness of staff	The respect shown to the resident/patient by staff
3 Respect for privacy	Meeting the resident's/patient's need for privacy
4 Resident-to-resident friendships	Offering the resident/patient opportunities for friendships
5 Resident-to-staff friendships	Offering the resident/patient opportunities for friendships with staff
6 Meaningfulness of activities	Offering the resident/patient meaningful activities
7 Religious/spiritual opportunities	Meeting the resident's/patient's religious and spiritual needs
17 Safety of facility	How safe it is for the resident/patient
18 Security of personal belongings	The security of the resident's/patient's personal belongings
21 Quality of dining experience	How enjoyable the dining experience is for the resident/patient
QUALITY OF CARE DOMAIN	
	Rate this facility on ...
8 RN/LVN/LPN care	The quality of care provided by the nurses (RNs/LVNs/LPNs)
9 CNA/NA care	The quality of care provided by the nursing assistants (CNAs/NAs)
10 Rehabilitation therapy	The quality of rehabilitation therapy (occupational, physical, speech)
11 Adequate staff to meet needs	Providing an adequate number of nursing staff to meet care needs
12 Attention to resident grooming	Meeting the resident's/patient's need for grooming
13 Commitment to family updates	Keeping you and your family informed about the resident/patient
14 Competency of staff	The competency of staff
15 Care (concern) of staff	The staff's care and concern for the resident/patient
QUALITY OF SERVICE DOMAIN	
	Rate this facility on ...
16 Responsiveness of management	Management's responsiveness to your suggestions and concerns
19 Cleanliness of premises	The cleanliness of the room and surroundings
20 Quality of meals	The quality of the meals
22 Quality of laundry services	The quality of laundry services
DEMOGRAPHICS AND BACKGROUND INFORMATION	
25 Length of stay	How long has the resident/patient lived at this facility?
26 Person visiting most	Who visits the resident/patient most often?
27 How often visited	How often does this person visit the resident/patient?
28 Homes visited	How many nursing homes did you (or your family) visit before choosing this facility?
29 Reason for choosing	What is the most important reason you (or your family) chose this facility?
30 Gender of resident	What is the resident's/patient's gender?
31 Age of resident	What is the resident's/patient's age?
32 Relationship to resident	What is your relationship to the resident/patient?

- N/A Fewer than 10 responses, so no statistical comparison is possible
- I Insufficient number of surveys sent to obtain adequate data

Healthcare Quality Reporting Program Nursing Home Summary Report

The Rhode Island Department of Health publishes information about nursing homes. If you know that you or a family member will need nursing home care, this information can help you compare nursing homes and choose among them. You may also want to visit nursing homes and to ask friends and family members for their thoughts and experiences.

This report summarizes information from the Department of Health (www.health.ri.gov/nursinghomes/about/quality) and Medicare (www.medicare.gov/nursinghomecompare). Reports with more information are available at those websites.

This report is updated every time there is new information for one of the columns below. You can learn more about what is in this report, including definitions and time periods for each column of information, by reading the Methods Report. Please contact nursing homes directly with questions, to inquire about private insurance, to check on bed availability or to schedule a tour.

Healthcare Quality Reporting Program - Nursing Home Information

Nursing Homes:

The Rhode Island Department of Health's (HEALTH) Healthcare Quality Reporting Program is requesting that all RI Nursing Homes take 10-15 minutes to complete a brief questionnaire about your agency, services and service areas.

Nursing Home Administrators are asked to work with their teams to consider the [questions](#) and submit a single response by **COB on Friday - December 13th**.

The information you provide will serve two needs:

1. **To create a new Nursing Home Summary Report** designed to inform consumers' decision making by helping them understand how your facility compares to your peers. This short report will summarize some of the existing information now available from HEALTH and Medicare and will be published on [HEALTH's website](#). Case managers will be able to provide copies to patients.
2. **To create a Nursing Home Resource Guide for referring hospitals**. Healthcentric Advisors' [Safe Transitions team](#) will compile your responses into a resource guide. This detailed guide will be shared with referring ED and Case Management departments so they have a better understanding of the services that each facility is able to offer and contact information for key personnel.

All nursing homes are required by regulations to submit data and information to HEALTH, as requested. In the event that you do not respond by December 13th, your facility will have missing information in the consumer and hospital reports and you may be subject to a state citation.

Thank you in advance for your timely response. Please don't hesitate to contact us with questions.

Sincerely,

[Samara Viner-Brown, MS](#)

Chief, Center for Health Data and Analysis

[Gail Patry, RN](#)

Chair, Nursing Home Subcommittee

January 2014

Dear Rhode Island Nursing Home Consumer,

Thank you for your interest in the 2013 Rhode Island Nursing Home Satisfaction Survey. The information here will help you understand the satisfaction survey results. This packet includes:

- How Rhode Island reports nursing home satisfaction
- How the information is collected
- How to understand the report
- What the diamonds mean
- How the diamonds are calculated
- Other sources of information

In 1998, Rhode Island passed a law that requires the state to publicly share information about the quality of care in all licensed healthcare facilities. Currently, information about patient satisfaction and care outcomes is available for hospitals, home health agencies, and nursing homes. By making information publicly available, the law aims to:

- ✓ Promote quality in the state's healthcare system
- ✓ Help people choose among healthcare providers, such as nursing homes

The Nursing Home Satisfaction Report presents each nursing home's scores using diamonds:

- One diamond (◆) means that the score is worse than the Rhode Island average.
- Two diamonds (◆◆) means that the score is about the same as the Rhode Island average.
- Three diamonds (◆◆◆) means that the score is better than the Rhode Island average.

You can learn more about the diamonds on page 5.

To access the 2013 Nursing Home Satisfaction Report or get information about other licensed healthcare providers, please visit the quality reporting program's Web site (<http://www.health.ri.gov/healthcare/about/quality/>) or call the Department of Health (401-222-2231).

Sincerely,

A handwritten signature in cursive script that reads "Samara Viner-Brown".

Samara Viner-Brown, MS
Chief, Center for Health Data and Analysis

Rhode Island Nursing Home Satisfaction

In 1998, Rhode Island passed a law that requires the state to publicly share information about the quality of care in all licensed healthcare facilities. This law includes releasing information about patient satisfaction and care outcomes. Since the program started, the state has reported information for home health agencies, hospitals, nursing homes, and physicians. This information helps consumers compare healthcare providers (like nursing homes) and choose among them.

The Rhode Island quality reporting program is run by the Department of Health and a committee that helps the program decide what information to release about nursing homes. The committee meetings are open to the public. Participants include local stakeholders—such as representatives of local nursing homes, government agencies, health insurers, and others interested in Rhode Island’s nursing homes. Together, these people help to shape the state’s nursing home public reporting efforts.

If you are interested in attending the Nursing Home Subcommittee meetings, please visit the Rhode Island Open Meetings Web site to access agendas and minutes (www.sec.state.ri.us/pubinfo/openmeetings) or contact Ann Messier (401-528-3265 or amessier@healthcentricadvisors.org) to be added to the email list.

How Rhode Island Reports Nursing Home Satisfaction

As part of the public reporting program, Rhode Island’s nursing homes collect information about patient, or “resident,” satisfaction on a regular basis. Rhode Island nursing homes first collected and released this information in 2006. The 2013 Nursing Home Satisfaction Report is the eighth round of public information about nursing home satisfaction. Nursing homes sign a contract with a survey company, and the survey company collects information from residents and family members.

What My InnerView Provides Nursing Homes

In 2007, the Nursing Home Subcommittee recommended that the public reporting program begin using a company named My InnerView to measure nursing home satisfaction in Rhode Island. My InnerView is a company that helps nursing homes:

- Measure and improve their performance on resident and family satisfaction
- View, or “trend,” their performance over time

My InnerView also has the largest database of nursing home satisfaction in the U.S., which is useful for helping nursing homes compare, or “benchmark,” their performance with other nursing homes’ performance. For more information about My InnerView’s services, please visit the company’s Web site on the Internet: www.myinnerview.com.

What My InnerView’s Survey Includes

My InnerView’s satisfaction survey was designed by survey experts, who tested it to make sure that it was easy for nursing home residents and their families to understand and that it provided accurate, reliable information. The survey includes more than 20 statements in four categories:

1. **Quality of Care:** This category reflects the resident's or family's **perception of the medical care that the nursing home provides**. Questions in this category include topics like the care (concern) of staff, competency of staff, and the quality of nursing care provided.
2. **Quality of Life:** This category reflects **the social, personal, and comfort factors that affect nursing home residents' daily life and help them feel at home**. Questions in this category include topics like the ability of the resident to make choices, the nursing home's respect for privacy, friendships with other residents and staff, and the respectfulness of nursing home staff.
3. **Quality of Services:** This category reflects the resident's or family's **perception of the other services a nursing home provides**, such as laundry and housekeeping. Questions in this category include topics like responsiveness of management and cleanliness of the building and grounds.
4. **Overall Satisfaction:** This category reflects the resident's or family's responses to questions that ask **how satisfied they are with the nursing home and whether or not they would recommend the nursing home to others**.
5. **Custom Questions:** Five additional questions were added to the survey that did not fall under any of the categories above. One question was added to the family survey regarding **how nurses and nursing assistants explain things in a way that are easy to understand**. Four questions were added to the resident survey, encompassing these topics: **how residents and family participate in decision making, how well the staff listen to the residents, how well the staff help when the resident has pain, and how well the staff help the resident make end of life decisions**.

For each statement, people are asked to score the nursing home from "poor" to "excellent." They can also provide written comments. For more information about the surveys, please visit the My InnerView website on the Internet: www.myinnerview.com.

How the Information is Collected

Nursing homes are required to survey 100% of their cognitively-intact residents and 100% of families, regardless of the residents' cognitive status.

My InnerView asks nursing homes to provide contact information for all residents who can answer questions, either independently or with someone's help. If residents cannot answer questions—for example, because their thinking is impaired—then only their family members receive surveys.

Data collection for the 2013 Nursing Home Satisfaction Survey took place in Fall 2013. The Department of Health required each Rhode Island nursing home to sign a contract with My InnerView and provide mailing lists for residents and family members. Each person on the mailing lists received a packet from My InnerView in the mail. This packet included a cover letter, the satisfaction survey, and a pre-addressed, postage-paid return envelope to send the

completed survey to My InnerView. Sending the results directly to My InnerView helps ensure that people share their true feelings.

After receiving the completed surveys, My InnerView looked at the results and provided confidential feedback reports to each individual nursing home. This occurred in December 2013. My InnerView also provided nursing homes with online education and training.

How to Understand the Report

In 2013, 89 nursing homes collected resident satisfaction information and 86 collected family satisfaction information. The results of these surveys are included in the 2013 Nursing Home Satisfaction Report. The report lists each of the nursing homes and their results. Results are presented as one (◆), two (◆◆), or three (◆◆◆) diamonds for each of the four survey categories described above—(1) quality of care, (2) quality of life, (3) quality of services, and (4) overall satisfaction—and also a fifth category, total score. Total score combines the first four areas of performance and is included in the column at far right. This category helps people compare one nursing home to another more easily.

If 10 or fewer people provided responses for an area of performance, the information is withheld because it may not accurately reflect residents' and families' satisfaction. Information that is withheld is indicated by (N/A).

If a nursing home failed to provide mailing lists for residents, families or both, or if a nursing home failed to distribute the minimum number of surveys, there is insufficient data to calculate a result. Insufficient information is indicated by a capital 'I'.

Failure to distribute the minimum number of surveys is determined by audit. Each year, the Rhode Island Department of Health's Facilities Regulations audits the resident and family satisfaction survey process to ensure that nursing homes survey both residents and families, as required, and that the number of surveys distributed is at least 50% of the facilities' estimated bed size, occupancy and (for resident surveys) cognitive status.

What the Diamonds Mean

The diamonds help you understand how the average of the nursing home's responses compares to the performance of other nursing homes in Rhode Island:

1. One Diamond (◆) One diamond is the **lowest category**. It means that the nursing home's score for this area of performance is below the Rhode Island average.
2. Two Diamonds (◆◆) Two diamonds is the **middle category**. It means that the nursing home's score for this area of performance is about the same as the Rhode Island average.
3. Three Diamonds (◆◆◆) Three diamonds is the **highest category**. It means that the nursing home's score for this area of performance is above the Rhode Island average.

These categories are determined mathematically to ensure that the differences are meaningful. In detailed terms, this means that nursing homes with either one diamond (◆) or three

diamonds (◆◆◆) have scores that are “statistically significantly different” from the Rhode Island average.

How the Diamonds are Calculated

The information in this section is for people who want statistical details about the diamond calculations:

The one- and three-diamond cut-points are the 25th and 75th percentile of all Rhode Island scores. To have one diamond (◆) the score must fall below the 25th percentile and its margin of error, or “95% confidence interval,” cannot include the Rhode Island average. To have three diamonds (◆◆◆) the score must fall above the 75th percentile and its margin of error, or “95% confidence interval,” cannot include the Rhode Island average. If the 95% confidence interval includes the Rhode Island average, then the nursing home’s score is not accurate enough to categorize it as better or worse than other nursing homes. The nursing home then has two diamonds for that score (◆◆).

Other Sources of Information

The 2013 Nursing Home Satisfaction Report is one of several sources of information that you can use when choosing a nursing home. Consider these other sources of information, too:

- In-person visits to the nursing homes
- Recommendations from family and friends
- Information about care outcomes available through the Department of Health’s quality reporting program: <http://www.health.ri.gov/healthcare/about/quality/>
- Inspection reports available through the Department of Health: 401-222-2566
- Medicare’s Nursing Home Compare website
<http://www.medicare.gov/nursinghomecompare/search.html>

All of this information can help you figure out which nursing home may be a good fit for you or your family member.

Healthcare Quality Reporting Program

NURSING HOME SUMMARY REPORT

Methods

The Nursing Home Summary Report is [published on the Department of Health website](#) as part of the Healthcare Quality Reporting Program. The Summary Report summarizes information from the [Department of Health](#) and [Medicare](#), among other places. This report is updated to reflect the most recently available data for each column. Reports with more information are available at those websites.

This Methods Report provides additional details about the measures in the Summary Report, including where they come from and why they are important.

Definitions

Dementia Dementia is a term used to describe a number of cognitive conditions, including Alzheimer's Disease, which impair memory, language, motor activity, and object recognition. Dementia is generally seen in older adults.

Summary Report Measures

Facility Measures

Number of Beds Reflects the number of beds a facility has available for residents. A nursing home can only admit as many residents as they have beds, so knowing the size of the facility can be useful when making a decision. This measure is submitted to the Department of Health's Healthcare Quality Reporting Program by the facility.

Number of Skilled Beds Reflects the number of beds a facility has that are designated for patients who need "skilled" daily nursing and rehabilitative care. These are beds that are only for Medicare patients receiving short-term (less than 100 days) of care. Knowing the number of skilled beds is important for patients seeking to understand a facility's capacity for skilled care and also because these beds are not available for residents seeking long-term care or without Medicare coverage.

This measure is submitted to the Department of Health's Healthcare Quality Reporting Program by the facility.

Secure Dementia Unit Notes whether a facility has a secure dementia unit. This is an area in the facility that is designed to meet the specialized needs of patients with dementia. Dementia is a chronic or persistent disorder of the mental processes caused by brain disease or injury and marked by memory disorders, personality changes and impaired reasoning. If you, or your family, member have dementia, you may want to seek

facilities who offer this type of care.

This measure is submitted to the Department of Health’s Healthcare Quality Reporting Program by the facility.

Certification

Medicare

This category indicates if a facility is certified by Medicare. Medicare will only pay for services in facilities that are Medicare certified, so knowing if a facility accepts Medicare can be helpful when making a decision.

This measure is submitted to the Department of Health’s Healthcare Quality Reporting Program by the facility.

Medicaid

This category indicates if a facility is certified by Medicaid. Medicaid will only pay for services as facilities that are Medicaid certified, so knowing if a facility accepts Medicaid can be helpful when making a decision.

This measure is from Medicare’s Nursing Home Compare.

Quality and Satisfaction

Staffing

A rating of 1 to 5 stars based on the nursing home’s staffing hours for Registered Nurses (RNs), Licensed Practical Nurses (LPNs), Licensed Vocational Nurses (LVNs), and Certified Nursing Assistants (CNAs). More stars are better.

This measure is based on the amount of time these types of care givers spend with residents. This information is only available for Medicare-certified facilities.

The information is submitted by the nursing home and reported on Medicare’s Nursing Home Compare website.

Health Inspections

A rating of 1 to 5 stars based on the nursing home’s health inspection results. More stars are better. This reflects the results of formal inspections, as well as inspections made in response to formal complaints. It is important to know whether a facility is meeting the standards set for facilities across the state.

Facility ratings are based on the number, scope and severity of deficiencies identified during the three most recent annual inspection surveys, as well as substantiated findings from the most recent 36 months of complaint investigations. This information is only available for Medicare-certified facilities and is taken from Medicare’s Nursing Home Compare website.

Quality Measures

A rating of 1 to 5 stars, based on how well the facility performs on certain nationally reported quality measures. Performance is measured based on information from the Minimum Data Set, a clinical assessment that nursing homes complete for every resident at regular intervals. More stars are better.

This measure uses nine of the eighteen quality measures on Nursing Home Compare, including 7 long-stay measures and 2 short-stay measures. This information is only available for Medicare-certified facilities, and is taken from Medicare’s Nursing Home Compare website.

<i>Overall Rating</i>	This is an aggregate rating derived from the Health Inspections rating, adjusted by the Staffing and Quality Measure ratings. This information is only available for Medicare-certified facilities, and is reported on Medicare’s Nursing Home Compare website.
<i>Resident Satisfaction</i>	<p>This category reflects the resident’s responses to questions that ask how satisfied they are with the nursing home and whether or not they would recommend the nursing home to others.</p> <p>This measure is collected by the survey vendor, My InnerView, and comes from the Department of Health’s Healthcare Quality Reporting Program. The My InnerView resident and satisfaction survey is survey is administered annually. All long-term care facilities in Rhode Island are required to survey their residents.</p>
<i>Family Satisfaction</i>	<p>This category reflects the family’s responses to questions that ask how satisfied they are with the nursing home and whether or not they would recommend the nursing home to others.</p> <p>This measure is collected by the survey vendor, My InnerView, and comes from the Department of Health’s Healthcare Quality Reporting Program. The My InnerView resident and satisfaction survey is survey is administered annually. All long-term care facilities in Rhode Island are required to survey their residents’ families.</p>
<i>Healthcare Workers Who Received Influenza Vaccination</i>	<p>This measure looks at the percentage of healthcare workers that receive an influenza (flu) vaccination during the influenza season (October-March). Research shows that vaccinating healthcare workers against the flu helps residents to avoid getting the flu.</p> <p>This measure comes from data submitted by healthcare providers to the Department of Health’s Immunization Program and is published by the Department of Health’s Healthcare Quality Reporting Program. This information is updated annually.</p>

Important Information about the Nursing Home Compare Star Rating System

It is important for consumers to know that the Overall Rating from Nursing Home Compare **only** measures a facility’s performance against other facilities in the **same state**. It is not based on a uniform national standard, like the “star” ratings you might see used for hotels, restaurants, movies, or the like.

In fact, under the Medicare formula for assigning these star ratings, each state **must** rank twenty percent of facilities as one star and ten percent as five stars. The remaining seventy percent of facilities are divided equally among two, three, or four stars. Once the initial rating is assigned, the facility can move up or down by a single star on the basis of quality measures and staffing. All states therefore have roughly the same number of one and five star facilities, regardless of the quality of their nursing homes.

With this background information, the star ratings can be useful in choosing a nursing home.

Missing data

Not all data are available for all facilities. This could be due to the data collection process or because the facility did not submit data for a particular report. It could also be because the facility had an insufficient number of responses for a particular category.

Capacity and Certification

This information was submitted by the facilities to the Rhode Island Department of Health. Not all facilities provided information for all categories. Fields with missing data are denoted with a dash (-).

Nursing Home Compare Measures

These categories are available for Medicare certified facilities only. There are facilities in Rhode Island that are licensed by the state to provide care, but are not certified to accept payment from Medicare; these data are not reported for these facilities. For facilities who are not certified by Medicare, these fields are denoted n/a.

Some facilities did not submit enough data for Nursing Home Compare to create a star rating for some categories. These fields are denoted with an ‘I’.

Resident Satisfaction/Family Satisfaction

If 10 or fewer people provided responses for an area of performance, the information is withheld because it may not accurately reflect residents’ and families’ satisfaction. Information that is withheld is indicated by (N/A).

If a nursing home failed to provide mailing lists for residents, families or both, or if a nursing home failed to distribute the minimum number of surveys, there is insufficient data to calculate a result. Insufficient information is indicated by a capital ‘I’.

Healthcare Workers Who Received Influenza Vaccination

Facilities must provide this information annually to the state Immunization Program. The Public Reporting Program uses this data to determine the percentage of facility healthcare workers who received the seasonal flu vaccine. Data is not available for facilities that did not submit the required data. Fields with missing data are denoted with a dash (-).

Data Collection Period

This report is updated to reflect the most current information for each column. Due to varying data collection methods (see individual measures above for more information) the data in this report were not all collected during the same time period. Current data collection periods are as follows;

Measure	Data Collection Period for Current Report
Facility Measures	2013 Department of Health Survey
Medicare Certification	2013 Department of Health Survey
Medicaid Certification	2013 Department of Health Survey
Overall Rating	Third Quarter 2013
Staffing	Third Quarter 2013
Quality Measures	1/1/2013 – 9/30/2013

Health Inspections	Three most recent health inspections, file downloaded from Nursing Home Compare 1/21/14
Satisfaction Measures	2013 Rhode Island Nursing Home Satisfaction Survey
Healthcare Worker Vaccination	2012 – 2013 flu season
