Parole is contingent upon Mr. Carillo remaining booking free and remaining in any program or educational course in which he is currently enrolled. During any period he becomes unemployed, he must actively work with his parole officer to perform up to twenty hours weekly of community service. The Board considered information reflecting both static and dynamic indicators including, but not limited to, criminal history, police reports(s), institutional record, risk assessment(s) and parole plan/request. Notwithstanding his parole risk instrument score, Mr. Chavez presented with limited remorse as well as a display of disrespect for his parole consideration. In addition, he presents to the Board with a very limited parole plan which to the Board reflects

that he has no real plan to change his pattern of criminal behavior. Due to the nature and seriousness of his offense and his lack of insight we will deny parole without reconsideration. The Board has have no confidence in his ability to remain at liberty without violating the law.(GTD: 2/28/21) MEDIUM VOTE: UNANIMOUS-Present; Pisaturo, Verdi, Nolan, DeLosSantos

107819 FORTUNE RONALD H DOB: 02/20/1974 - DENIED

The Board considered information reflecting both static and dynamic indicators including, but not limited to, criminal history, police reports(s), institutional record, risk assessment(s) and parole plan/request. The Board commends Mr. Fortune on his progress as well as remaining booking free and acknowledges his insight as presented at hearing. In balance, however, the Board remains gravely concerned about the nature and seriousness of his offense including the loss of an innocent life and length of sentence. We feel compelled to deny parole based on the fact that we believe to parole him at this stage would undermine the seriousness of his actions and believe he should serve more time. We will reconsider him in twelve months (7/2017). The

Board would appreciate feedback

The Board considered information reflecting both static and dynamic indicators including, but not limited to, criminal history, police reports(s), institutional record, medical records, risk assessment(s) and parole plan/request.

**Notwithstanding Mr. Gonder's assessment score on the Parole Risk Instrument the Board gives greater weight at this time to the nature and seriousness of this offense including the loss of an innocent life, the use of a firearm, the presence of children and the length of sentence the Board votes to deny parole. The Board believes that to parole him at this time would depreciate the seriousness of his actions and offense. We will reconsider him in five years.

balance, however, the Board remains concerned about his extensive criminal history, as well as the nature of his current offense and believes he should serve additional time otherwise it would undermine the seriousness of his actions as well as his criminal record and promote disrespect for the law. The Board considered information reflecting both static and dynamic indicators including, but not limited to, criminal history, police reports(s), institutional record, risk assessment(s) and parole plan/request. Notwithstanding Mr. Martinez's risk assessment, given the nature and seriousness of his offense, including the loss of life and length of sentence, as well as some responses at hearing in which he distanced himself from the intentional acts of leaving the scene and retrieving a firearm, the Board will deny parole at this time but reconsider him in two years.
