The Board considered information reflecting both static and

The Board considered information reflecting both static and dynamic indicators including, but not limited to, criminal history, police reports(s), institutional record, risk assessment(s) and parole plan/request. The Board votes to deny parole at this time given the nature and seriousness of Mr. Pineda's offense as reflected not only in his sentence, but in the high level of drug dealing activity in which he was involved. The Board is also concerned with his prior criminal history for drug delivery, as well as DUI. The Board believes that to parole him at this stage would promote disrespect for the law. The Board considered information reflecting both static and dynamic indicators including, but not limited to, criminal history, police reports(s), institutional record, risk assessment(s) and parole plan/request. The Board notes that this is Mr. Tate's fourth incarceration and is concerned with the serious nature of his offense for a firearm charge. In addition, based on his responses at hearing the Board is concerned that Mr. Tate is not fully taking advantage of opportunities to change his criminal lifestyle. The Board votes to deny parole without
