The Board considered information reflecting both static and dynamic indicators including, but not limited to, criminal history, police reports(s), institutional record, risk assessment(s) and parole plan/request. The Board votes to deny parole. This is not Mr. Davis' first incarceration or appearance before the Parole Board and he is now in his fifties and has absolutely no insight into his criminal behavior, the causes and the effects. The Board feels to parole him at this would depreciate the seriousness of his offense and his criminal record and further would foster disrespect for the law. He will flatten his sentence.
