The Board considered information reflecting both static and dynamic indicators including, but not limited to, criminal history, police reports(s), institutional record, risk assessment(s) and parole plan/request. In light of the repetitive nature of Mr. Carpenter's offense, the fact that

he was on probation at the time, the nature of his offense for firearm possession and his prior opportunity on parole the Board believes that he should serve more time. Otherwise to parole him at this stage would promote disrespect for the law. The Board also expects Mr.

The Board considered information reflecting both static and dynamic indicators including, but not limited to, criminal history, police reports(s), institutional record, risk assessment(s) and parole plan/request.
