**a. New Licenses: Lorraine Quirk made the motion seconded by Stacey Ranucci to approve the new licenses.**

**b. Implanted Pump Management: Gerald Goulet a consultant for Implanted Pump Management (IPM) presented to the board for approval for IPM to use an infusion pharmacy to send medication to the nurse who would then deliver it to the patient. The board generally feels it is acceptable but would like to research what other states are doing. Leo Lariviere will reach out to other states. There are also federal DEA issues that may apply if controlled medication is delivered to someone other than the ultimate user. Also the infusion pharmacy must be licensed in the state of RI.**

**c. Governor's OD Task Force: pharmacy areas of focus. Although the board is in agreement with the plan the RI Department of Health has developed and considers it a wonderful four point approach to dealing with the opioid overdose crisis, the Board is very concerned about the suggestion of adding naloxone to the RI Prescription Monitoring Program. The board will author a letter to the Department**

of Health outlining their concerns.

d. Transitions of care: Tracey Taveira has asked the board to write a letter of support for her grant proposal to help heart failure patients who get discharged from the hospital to receive medication reconciliation at their pharmacy of choice. Ms. Taveira will use specially trained 6th year pharmacy students to do the medication reconciliation under her supervision. The board acknowledges the public health problem that occurs when patients get discharged from the hospital or rehabilitation center. The board would like to write the letter but will first seek legal approval for a state board to write such an endorsement.
