

MEMORANDUM:

To: Unified Board Members

From: Richard A. Bernardo, P.E., Chairman

Date: June 25, 2008

Re: Article 9, Sub A

As you may be aware the Unified Board of Design Professionals will no longer exist as of July 1st. The original four Boards will be restored to their prior status as a single Division within the Department of Business Regulation (DBR). The Director of DBR has thanked us for our work with this difficult law since January.

Personally I believe it was our professionalism in trying to work through the issues while working with the legislators to revise the law that resulted in the successful restoration of the four Boards.

Finally, I would like to thank you for your work and officially declare our work complete. Please contact this office if you should have any questions or require any further information.
