**Budget Reconciliation - 2007-2008**

**Interim Superintendent Nasif reported on the changes in the budget which were recommendations by the budget board. Mencucci explained the middle school security person would be non-union, working ten hours each on Saturday and Sunday, same as at the high school. In purchased services there is a reduction under tuitions due to Lincoln bringing back an out of district student. Miller explained there was a transfer for the bus monitors from transportation to**

**purchased services because that is where the bus contract is paid. The town's figure was \$46,627,649 and this brings the budget into compliance with that. Move to approve by Zangari. Seconded by Varr. All in favor. Motion carried.**

### **Lunch Program Budget**

**Interim Superintendent Nasif explained the price of hot lunch has not been raised in a while. To keep pace, the proposal is for an increase of twenty-five cents per lunch. Viveiros explained prices were raised two years ago. If the price weren't raised, Viveiros explained they may be able to break even, but there would be less use of fresh fruits and vegetables and whole grain items, which would be out of compliance with the state guidelines or there would be a deficit. Roll explained there were guideline changes for the high school that will be in effect January 2008. Discussion ensued regarding the net being used to repair/replace equipment and researching energy savings. The discussion also included a truck for deliveries that would impact the budget.**

**Motion to approve the twenty-five cent increase by Zangari. Second by Battistoni.**
