Discussion of comparisons of non-certified staff salaries across the state.

The committee reviewed documents from RIASC that listed pay rates for non-certified staff from eight school systems. Because there was so much information the committee agreed to divide up the schools and fill out a chart that listed hourly rates, co-pays for insurance and longevity.

This information will be compared and discussed at the next subcommittee meeting.

It was noted that the rates on the RIASC web site were for fulltime employees only. The committee would like information on part time non-union hourly rates as well.

The subcommittee chair will ask the superintendent for that information.

The meeting adjourned at 7:45PM

Mary Varr
