11. Chairman's Report

Chairman's Report

Mr. Williamson said first he would like to congratulate Steve Lawton and Chris Messier who are both here this evening – he knows that both of these gentlemen are committed to children and education and he is confident that they will do a great job on the School Committee. He said they are both present this evening and he would like to welcome them with a round of applause. Mr. Williamson asked them to stand for the audience and he wished them good luck.

Mr. Williamson gave the following statement:

Many have said that the last five or six years have been the most difficult in the history of the West Warwick School Committee. I don't know if this is true or not but I think we can all agree that our challenges have been plentiful and anything but easy. Looking back over the last six years, there is very little I would do differently. We have worked extremely hard to overcome the challenges but more importantly we worked together. We remained unified through the most difficult of times which I

believe has been the critical element of our successes. I would like to thank the school committees, both past and present, the administration, the unions, the faculty, the staff, and the students for your faith, your trust, and your support of me especially over the past year. We all have issues to deal with, both personal and professional, but through it all, we've never backed down and have given the very best we could for the children of West Warwick. This has resulted in a steady increase of student achievement year after year. Finally, I would like to thank all of the fantastic people that I have developed friendships with; you've all become my second family and words cannot describe what your support and caring has meant to me and my family. Thank you, and I wish you the very best in the future.
