- 1.2 **Subcommittee Appointments.** Dr. Shoemaker did not announce the 2008 subcommittee appointments.
- 1.3 **New Chairman – The Year Ahead.** Dr. Shoemaker reported that new schools will be the major effort of the new year. Dr. Shoemaker outlined the commitment of the School Committee to the new school project.

In September 2007, the School Committee approved a plan to move the seventh and eighth grade middle school students from Thompson Middle School to a newly renovated wing of Rogers High School on the Rogers campus, move the city-wide grade 4 through 6 students to Thompson Middle School and construct a new elementary school for city-wide students in Pre-K through grade 3 on the site of the Underwood Elementary School.

In December 2007, a Stage I application was submitted to the RI State Department of Education for approval of the plan. Successful approval at the RIDE, and then approval by the Newport City Council is required before a ballot referendum can take place.

Today, Superintendent Ambrogi and Property Services Director Paul Fagan appeared before the State Fire Chief to meet on Newport Public Schools request for waivers from the State Fire Codes which were strengthened after the Station nightclub fire. We are currently operating with waivers in many of our schools and it would be prohibitively costly to proceed with bringing our old outdated building into fire code compliance if the intent is to surplus them back the City of Newport for redevelopment.

If the building plan is to be successful, a strong community outreach program is going to be needed to ensure the successful passage of the bond referendum. The community must be convinced that it will save money by investing in new schools. The Newport City Council must be supportive of the project.

Academically, we all expect higher expectations for all our students. We want to see our test scores improve and we want to maintain high academic goals at the all levels. We plan to deal with the academic eligibility issue and hopefully come to a resolution that will satisfy everyone.
