She asked if this could be re-visited and possibly changed to another date. Mike Chandler spoke about how this was started about two years ago and how RIDE knew something had to be done for all of the districts. Cumberland needs between \$500,000 to \$600,000 – he said the district is at the top of the list because some of the work from the 2010 project helped us out a great deal. He said we should be at the top of the list when RIDE begins to allocate the funds. He said work could begin at the high school in September – CHS will be the first school and the other schools will follow. Mr. Duffy asked if it were possible to buy IPADS in bulk so that we could offer them to students for a discounted price – Dr. Thornton liked the idea and would discuss with the attorney to see if that is something that the district could do. Mike noted that the high school could be completed in a week's time – once started. Dr. Thornton said that Mike has worked tirelessly on this project for the district. – Thank you Mike Chandler!
