**Donald passed around material summarizing efforts to locate a usable source of water on land belonging to the Woman's Devopment Corp. by employing low frequency sound waves. A possible site was located near North Road, but negotiations are difficult with the owners at this point regarding accessability. Donald also described efforts to communicate with Carl Richard which ended unsuccessfully. A conversation with Bob Bozikowski was mentioned where he noted it might be possible for the District to obtain a variance for the location of a new well regarding proximity to septic systems.**

**Much discussion between Board members and others regarding our**

**financial state and how much longer we could spend money exploring new options for a well site. Sandy suggested we wait for the results of a variance appeal being reviewed by State Housing Authority Board before we try any further to bargain with WDC for land. Board members agreed to meet again in the near future to discuss our finances and further efforts to locate a new well site.**

**Cherrie motioned and Rick seconded to adjourn the meeting at 8:45 PM.**
