

Regular Meeting Minutes
Tiverton Recycling/landfill Committee
Thursday October 23, 2014

Members present: Stephen Berlucchi, Steven Rys, Dick Hart, Richard Guimond, Jay Lambert

- **Minutes approved with changes**
- **S. Berlucchi submitted a new alternate location for recycling center for committee to contemplate. The location is at the north end of landfill near the concrete building that stores the bulldozer. A new road would need to be constructed at a cost of approximately 45 to 50 thousand dollars. The road would be over .6 of mile and need regular maintenance, if this location is chosen. Dick Hart suggested if recycling center is located at landfill location that town should push for town water be brought to town farm and eventually to four corners on main road. This area is at risk for contamination of wells from landfill.**
- **Richard Guimond voiced conservation committee concerns to location of recycling center at beginning to landfill across from ball field. Committee will attempt to meet with conservation committee to answer any concerns about that location.**
- **Adjournment**

Minutes prepared by Steven P Rys
