### **3. Board Manager's Report**

- Linda Esposito, Board Manager, notified members present that Board Member Carol Kut, resigned from the Board effective January 12, 2016.
- Sarah Harrigan, Chief of Professional Boards and Commissions, advised the Board that some issues had been brought to light regarding the requirement of ARRT certification for licensure as outlined in the Rules and Regulations. ARRT qualifications for certification require that an applicant must have graduated with an Associate's degree or higher within the last five (5) years in order to qualify to take the exam for certification. Per ARRT, anyone who had graduated more than five (5) years ago, or prior to January 1, 2011, would need to go back to school and re-graduate in order to qualify for certification. Since ARRT's standard is prohibitive for those who graduated prior to January 1, 2011, this makes the lack of a "grandfather clause" under the current Rules and Regulations also prohibitive for those already licensed by the Department at that time who would fall into that category. The Department is proposing a change to the Rules and Regulations that would add a "grandfather clause" in order to allow those already licensed by the Department prior to January 1, 2011 to be able to maintain their licensure without the requirement of ARRT certification. After discussion, Board Members raised concerns that a time limit for the "grandfather clause" be considered, such as 10 or 15 years. Concerns were also raised about Radiation Therapists providing radiation services without ARRT certification. Ms. Harrigan noted the Board's concerns and will raise those issues with the Department when discussing the changes that should be made to the Rules and Regulations. Board Members will be kept informed of the progress of those discussions and proposed changes.

**Sarah Harrigan left the meeting at 8:55 a.m.**
