

MIDDLETOWN WIND TURBINE FEASIBILITY COMMITTEE

MEETING MINUTES

FEBRUARY 6, 2011 at 6:00 p.m.

MIDDLETOWN POLICE STATION COMMUNITY ROOM

Present: Members Christine Weglowski Forster, Peter Tarpgaard, Nicholas Pasyanos, Richard Price

Also attending: Town Councillor Barbara VonVillas

The meeting was called to order at 6:05 p.m.

Ms Forster welcomed new members Nick Pasyanos and Dick Price to the committee.

1. Ms. Forster reported on the most recent meeting of EBEC on January 9, 2011.

2. FAA Ms. Forster reported that she had heard from the FAA, and that they requested technical information about the proposed turbine type that is not readily available from the manufacturer's brochures. She had contacted the manufacturer and they expressed surprise at the tech details, but would get back to her when the information was available. Ms. Forster had attempted to contact the specialist on the FAA application, but had been unsuccessful so far.

There was some brief general discussion of the recent Town Council meeting that Messrs. Pasyanos and Price had attended at which the council voted to draft an ordinance to prohibit all but some agricultural use turbines in town. The committee will complete the FAA process and draft a report to the Council.

Meeting adjourned at 6:40 p.m.
