

LITTLE COMPTON SCHOOL BUILDING COMMITTEE

Design Review Sub Committee

Approved Meeting Minutes from Monday, November 15, 2010

Open Session, Wilbur School Commons, 5:00 pm

Attended by: T. Alder, D. Gomez, R. Mushen, M. Steers, Supt. Crowley, BG Shanklin

Absent: B. Gauthier

Called to Order at 3:30 and 5 PM

Discussion Items:

Reviewed proposed design of Wilbur & McMahon Schools parent/child drop off and spaces related to the drop off.

Four schematic designs were reviewed on site from sketches provided by BG. Schematics indicated possible parent/child drop off's to the East of the school with the following possibilities: 1) Drive around the Odd Fellows Hall(OFH) and drop students along the North Stone wall and the basketball court, allowing students to walk a path behind the basketball court. 2) Drive in to the West of the OFH and drop students along the North Stone wall and the basketball court, allowing students to walk a path behind the basketball court. 3) Drive in to the West of the OFH, move the half court basketball backstops

to the Veterans field play area, create a wider path from the drop off to the rear school door, and drop students along the North Stone wall and the basketball court, allowing students to walk a path behind the basketball court. 4) Drive in to the West of the OFH, move the half court basketball backstops to the Veterans field play area, then build a driveway between the OFH and the School's Eastern driveway to connect with the existing lane way to drop students off there.

Location of the Kindergarten was discussed in relation to this possible drop off.

Discussion of leaving the current parent student drop off as it is now was also discussed, as a result of changes in policy regarding use of staff for coordination of drop off process.

A walk around the school also reviewed proposed location of auto and bus ingress relative to the West side of the School was done, as well as review of the location of the new additions of the School (primarily the cafeteria) and the School sidewalk along the Southern edge of the school.

No conclusions were drawn or voted upon.

Public Input: Margaret Manning was present and reviewed the site with the committee.

Next meeting: Nov. 22nd, at 5 PM was discussed, and later agreed upon, out of meeting.

Adjourn: 6:00 PM
