

LITTLE COMPTON SCHOOL BUILDING COMMITTEE

MINUTES

Workshop – September 13, 2010

Wilbur School Commons – 5:00 pm

Members Present: Tom Allder, Principal Jim Gibney, Ben Gauthier, Margaret Manning, BG Shanklin, Dave MacGregor, Mike Steers, Dorie Freeman, John Osbourne, Lynn Brousseau-Lebreux, Beryl Borden, Don Gomez

Members Absent: Tom Arkins, Jake Talbot, Bob Mushen, Mark Rapp, Micah Shapiro, Superintendent Kathy Crowley

The Meeting was attended by School Committee Chairman, Mike Harrington, who provided input during the session.

The meeting was called to order by Chairman Tom Allder at 5:04

The primary discussion of the Meeting was in regard to the EdSpec, and Space Needs Program, specifically, the changes that had been made to scheme 3A by the Administration.

The sense of the Workshop was overwhelmingly to have the architects bid the 3A design that was approved by the committee,

presented to the school committee, and published in the paper.

The sense was that this would give us a price on a building that meets present expectations for the education program we have, including our commitment to the music programs. It would also serve as an upper bound on what we would offer to the town. It was thought that in including these elements of the 3A building scheme would eliminate any surprise price hikes adding back in things that were removed without full consideration.

Vice –Chairman Dave MacGregor, convened over the meeting until its conclusion, at 6:30. On a motion by Dave MacGregor, seconded by Ben Gauthier, it unanimously voted to adjourn at 6:30.

Respectfully submitted,

**Tom Alder,
Chairman, LCSBC**
