

2019 Renewable Energy Growth Program – Drafted Megawatt Allocation Plan Proposed by the Office of Energy Resources

June 25, 2018

Technology/Classes	DG Board Approved 2018-Megawatt Allocation Plan	Drafted 2019-Megawatt Allocation Plan
Small Solar	6.55 MW DC	8.986 MW DC
Medium Solar	3.0 MW DC	3.0 MW DC
Commercial Solar	5.0 MW DC	5.0 MW DC
Community Remote - Commercial Solar	3.0 MW DC	3.0 MW DC
Large Solar	12.05 MW DC	10 MW DC
NEW -- Large Solar Carports	N/A	6.0 MW DC
Community Remote - Large Solar	3.0 MW DC	3.0 MW DC
Small Wind	0.400 kW DC	0.400 kW DC
Community Remote and Non-Community Remote Wind	6.0 MW DC	4.5 MW DC

Anaerobic Digestion and Small Scale Hydropower	1.0 MW DC	1.0 MW DC
Total	40 MW DC	44.886 MW*

Please submit any comments on the 2019 Drafted REG Megawatt Allocation Plan to Chris Kearns (christopher.kearns@energy.ri.gov) and Ken Payne (kennethfpayne@gmail.com) by **Friday, July 20th**.

*Total MW Capacity is based on 15 MW allocated to the 2019 REG Program Year and 29.886 MW from terminated or unused capacity from the Distributed Generation Contracts Program between 2011-2014. Any terminated or unused capacity from the 2015-2017 REG Program Years will be added to the 2019 MW Allocation Plan if capacity becomes available.
