may give priority to those households with the highest home energy costs or needs in relation to household income.

**(3) conduct outreach activities designed to assure that eligible households, especially households with elderly individuals or disabled individuals, or both, and households with high home energy burdens, are made aware of the assistance available under this title, and any similar energy-related assistance available under subtitle B of title VI (relating to community services block grant program) or under any other provision of law which carries out programs which were administered under the Economic Opportunity Act of 1964 before the date of the enactment of this Act;**

**(A) the State shall, before giving such special consideration, determine that the agency involved meets program and fiscal requirements established by the State; and**

**(B) if there is no such agency because of any change in the assistance furnished to programs for economically disadvantaged persons, then the State shall give special consideration in the designation of local administrative agencies to any successor agency which is operated in substantially the same manner as the predecessor agency which did receive funds for the fiscal year preceding the fiscal year for which the determination is made;**
