

The Rhode Island Office of Energy Resources (OER) and the Energy Efficiency and Resource Management Council (EERMC) are hosting a public meeting focused on gaining customer feedback on combined heat and power (CHP). In accordance with amendments made to R.I.G.L. § 39-1-27.7 in 2012, the EERMC is seeking public input in developing the CHP program and incentives in National Grid's 2013 Energy Efficiency Program Plan.

When:

Thursday, September 20, 2012

1:00 PM – 3:00 PM

Where:

Rhode Island Economic Development Corporation

315 Iron Horse Way, Suite 101

Providence, RI 02908

Agenda

- 1. Welcome, Meeting Objectives, & Introductions**
- 2. Brief presentation of current CHP offerings in 2012 Energy Efficiency Program Plan by National Grid**

3. Discussion guided by the following questions:

- a. What should National Grid be doing to support CHP development in Rhode Island?**
- b. What do you, your company, or your customers perceive the benefits of CHP to be?**
- c. What factors make CHP projects successful or unsuccessful?**
- d. What actions do you take to ensure long-term operability and availability of your CHP system?**
- e. What is the total or annual CHP potential in Rhode Island (MW or number of projects)?**

4. Summary of meeting discussion and next steps
